DISTRICT G.O.P. CALLED TO PICK DELEGATE LIST

Will Meet Feb. 6; State Group Named; Mt. Gilead Woman's Election Approved.

Developments came rapidly yesterday and today in state and Eighth district Republican party affairs.

A meeting of Eighth district G. O. P. leaders was called for Feb. 6 at Upper Sandusky to indorse delegates and alternates to the national convention.

At Columbus state leaders selected delegates-at-large and alternates and also confirmed the election of Mrs. Wilma Brollier of Mt. Gilead as Eighth district state central committeewoman.

District Meeting Set for Feb. 6

Eighth district Republican leaders will meet at Upper Sandusky on Feb. 6 to indorse a slate of delegates and alternates to the party's national convention, Bud Lawson of Marion, district chairman, announced today.

The district will have two delegates and two alternates who will be pledged to support Senator Robert A. Taft as first choice for the nomination, Mr. Lawson reported.

The slate selected by the party leaders will be placed before the voters in the May primary for approval.

Mr. Lawson is now sending out notices of the Upper Sandusky meeting to party leaders. Four persons from each of the six counties in the district are eligible to vote. They are the chairmen and secretaries of the county central and executive committees.

The meeting is scheduled for 7:30 p. m. in the probate courtroom.

In addition to the slate of delegates and alternates picked by the district committee, other Republicans may also enter the May primary and seek election as delegate or alternate, election board officials here said. Such candidates must declare their first and second choices for the nomination for president.

Ohio Lines Up Taft Backers

By The Associated Press

COLUMBUS, O., Feb. 1—Ohio Republicans lined up today for their campaign to make U. S. Senator Robert A. Taft of Cincinnati president of the United States.

The state central committee approved a slate of eight delegates-at-large to the party's national convention and announced that two delegates would be elected from each of the state's 22 congressional districts to make up the 52 convention votes to which Ohio is entitled.

Heading the approved slate of delegate-at-large candidates were Gov. Bricker, former Gov. Myers Y. Cooper, and Mrs. Alice Roosevelt Longworth, daughter of the late President Theodore Roosevelt.

Others Listed

Others were Ed D. Schorr, chairman of the state central and executive committees; David S. Ingalls of Cleveland, Taft's campaign manager; Grove Patterson, Toledo editor; John Galvin, Lima industrialist, and Lawrence Payne, Cleveland Negro party leader.

All will be pledged to Taft as "first choice" and Charles W. Montgomery of Newark as "second choice." They will be voted on at the May primary.

Selected as delegate-at-large alternates were John T. Brown, state director of agriculture; Col. Robert S. Beightler, state highway director; Evan M. Chase of Toledo, assistant attorney general; Mrs. Blanche M. Bowman of Bellevue, Mrs. Mary R. Mercer of Bowling Green and Mrs. Mar-

Britain's Economic Front Under Fire from Labor Party

By The Associated Press

LONDON, Feb. 1—Great Britain's economic front came under heavy fire in her own house of commons today with a formal Labor party demand for appointment of an economic minister to the war cabinet.

In probably the most important test of strength between supporters of the Chamberlain government and its opposition since the outbreak of the war with Germany, Laborites contended that organization of the vital economic phase of the struggle had lagged behind the rest of the country's war effort.

Support for the cabinet change cut across all party lines with the even strongly pro-government London Times joining in the chorus calling for correction of what it called "inadequate representation" of the economic side in the war cabinet.

More Ships Lost

On the physical side of the war, the latest reported British losses credited to torpedoes and bombs were the 5,063-ton steamer Vaclite and the 1,178-ton steamer Highwave, the former torpedoed in convoy and the latter bombed off the British coast.

The announcement of the loss of the Vaclite followed disclosure by Prime Minister Chamberlain yesterday that the attacking submarine had been sunk by British planes and warships. The Vaclite's crew was picked up by an Italian ship.

The entire crew of 18 of the Highwave reached Flushing, the Netherlands, last night, two of them wounded by machine-gun fire. They told how a German plane dropped 20 bombs at their ship Monday before a direct hit sent her under.

Crew Abandons Ship

Apparently also lost was the 4,634-ton British steamer Royal Crown with 12 of her crew. Fifteen men who abandoned the ship Tuesday in the North sea when a bomb struck amidships reached the British coast in a lifeboat yesterday. A second lifeboat was missing.

Full dress parliamentary debate on what has grown into a bitter, nationwide controversy drew leading speakers of the main parties, including Prime Minister Chamberlain, Sir John Simon, Clement R. Attlee and Sir Archibald Sinclair, representing, respectively, the conservative, liberal national, labor and liberal parties.

A labor motion presented by Herbert Morrison called for inclusion in the war cabinet of a minister charged specifically with "planning to the best advantage the resources of the nation for successful prosecution of the war and for meeting the requirements of the civilian population."

MARCH OF DIMES $50 OVER TOP HERE

Marion county went $50 over the top in its part in the March of Dimes drive conducted by employes of the Marion post office in connection with the annual infantile paralysis campaign, Postmaster L. L. Lamborn announced today.

The Marion post office quota of 1,400 buttons was sold and an additionaly 500 ordered were disposed of by rural and city carriers and employes in the post office.

A check for $190 was mailed yesterday to Algy Murphy of Troy, O., secretary of the Postmasters' Association of Ohio, to be forwarded by him to the National Foundation for Infantile Paralysis. Of the amount $80 will be returned to the state infantile paralysis organization Mr. Lamborn said.

7 IN FAMILY DIE IN FLAMES

Parents, 5 Children Trapped in Burning Home Near Pittsburgh.

By The Associated Press

FREEPORT, Pa., Feb. 1 — A family of seven, trapped on their second floor, burned to death early today as fire swept their six-room frame home in this Allegheny river town, 20 miles northeast of Pittsburgh.

The victims were Omar Brown, 38, an electrician; his wife, Mrs. Marion Brown, 35; three sons, Omar Jr., 11, Joe Lee, 8, and Charles Thomas, 10; and two daughters, Betty Lou, 15, and Helen Fay, 13.

All of the bodies, burned beyond recognition, were recovered. Two, believed to be the girls, were found in bed. Two others, apparently the mother and one of the smaller children, had reached the head of the stairs before they collapsed.

The father and two other children were found near a window in the front bedroom, where their escape was cut off by the flaming porch roof.

A neighbor of the Browns sounded the alarm at 1:30 a. m. but Fire Chief William Shields said the house by that time was "a solid mass of flames."

"Even the porches and roofs were on fire. There was no way we could get in," the chief said, adding—that at first firemen did not know whether any one was still in the building.

Firemen said the cause of the fire had not been determined and probably never would be known.

UNION BLOCKS MOVE TO CURB ITS POWER

Little Support Given Efforts To Cripple Committee.

By The Associated Press

COLUMBUS, O., Feb. 1—Efforts to curb the powers of the United Mine Workers' international executive officers found little support today at the organization's convention.

Numerous resolutions, proposing constitutional amendments to broaden district privileges of self-government, were voted down on recommendation of the constitution committee.

Many came from proponents of autonomy, who were informed last week by John L. Lewis, U.M.W. president, that the international executive board would give certain districts permission to elect their own officers when they were found capable of governing themselves.

Most of the autonomy resolutions declared the concentration of appointive power in the executive board was "not in harmony with trade union democracy," and asked that the districts be allowed to elect their officers.

W. H. Houser of Paris, Ark., accused Lewis of violating the constitution by serving as the officer of another organization. Boos and shouts of "throw him out" were directed at Houser.

The convention rejected proposed establishment of special relief funds for miners deprived of employment in a suspension of work during contract negotiations.

Several delegates complained that hundreds of miners' families were practically destitute in the bituminous coal shutdown last spring.

MARION MAN GETS STATE TAX POST

Announcement was made today of appointment of M. L. Wilson of Marion to a position in the state tax commission to serve under Senator John F. Edwards, deputy commissioner in charge of intangible taxes. The appointment was made by William J. Evatt, director of the tax commission, and is effective today.

Mr. Wilson served two terms as clerk of courts and as deputy clerk here several years ago.

TRUCK-TRAIN CRASH INJURES A. C. PEOPLES

Escapes Death When Thrown from Cab Before Truck Goes Through Wall.

Austin C. (Ott) Peoples, about 54, mechanic for the Merchants Transfer & Storage Co., narrowly escaped serious injury and possible death when the truck he was driving collided with the Southwestern Limited, a Big Four passenger train, at an alley crossing just east of North State street, about 10 o'clock this morning.

Mr. Peoples was thrown free of his demolished truck as the cab was hurled through the eight-inch concrete block wall of a nearby storage garage. He suffered slight shock. His condition was not considered serious, hospital attendants reported at noon.

His injuries include chest injuries and numerous lacerations on the face, the attending physician reported.

Prior to the accident Mr. Peoples had completed repairs on the truck and trailer, preparing the unit for a trip to Indiana. He drove the truck from the company's repair room, the entrance of which is at 182 North State street.

At Alley Crossing

Intending to take it to the rear of the building, he headed north on State street. He drove east on Quarry street and then south through the alley. The alley crosses the railroad tracks at the northeast corner of the transfer company's building.

Witnesses reported that marks on the engine indicated the truck apparently hit the front of the locomotive. They alley and crossing was heavily coated with snow and ice, it was reported by officials. They said the truck may have skidded into the front of the train.

The impact ripped the cab free from the unloaded trailer. The cab was whirled completely around and went through the wall of a storage garage owned by the Stuart Grocery Co., and located on the north side of the tracks. It ripped a gaping hole, approximately 10 feet high and 15 feet wide, in the concrete block wall.

Thrown from Truck

Mr. Peoples was thought to have fallen from the cab as it whirled about. He was found lying unconscious along the north side of the tracks. The front half of the cab was through the wall.

John Braham of 677 Bennett street and Saul Hecker of 910 Westwood avenue, employes of the Merchants Transfer & Storage Co., were among the first on the scene. They had been working with Mr. Peoples and ran from the repair room when they heard the collision.

Being on the south side of the tracks, their path to the injured man was blocked by the train, which had halted over the crossing. A colored porter opened the train doors, permitting them to cross to the opposite side. They went to Mr. Peoples' aid and other employes called the W. C. Boyd ambulance.

Train Stopped

The engine of the train halted just beyond the State street crossing, witnesses said. Engineer Kelly of Cleveland and Conductor Watkins of Indianapolis, Ind., were in charge. The train backed to the accident scene and later went on to Union station. The 10-car limited was delayed only momentarily by the accident. It was enroute from New York to St. Louis.

Patrolmen Harry Smith and Fred Norton conducted an investigation. Although the police department received no call, the officers learned of the accident after they heard an ambulance travel through the uptown section. Both were on duty uptown at the time.

Railroad officials at the nearby Big Four freight office said they noticed the train's approach. They said it was not traveling in excess of "25 miles an hour," and that its "whistle was blowing" for the crossing. A warning bell at the alley intersection also was ringing, it was reported.

The injured man is a brother of John C. Peoples, manager of Merchants Transfer & Storage Co. He resides at 204½ East Center street.

TERMITES DAMAGE DELAWARE SCHOOL

Special to The Star

DELAWARE, O., Feb. 1 — Termites are undermining one of Delaware's schools and steps have been taken by the city board of education to hire an expert exterminator to battle the little white ants.

It was discovered a few days ago that termites had cut joists under the auditorium of the East school. Thirty feet of flooring in the unexcavated part of the auditorium was ruined and 40 joists under the floor were cut, school officials reported at a special board meeting this week. A Columbus firm was employed to get rid of the termites and Floyd Keyser of Delaware was hired to repair the damages.

Japanese Accuse Russians Of Illegal Acts on Border

Accused Man Is Own Co-Counsel in Gambling Trial

A trial in which the defendant took matters largely in his own hands and served as his own co-counsel drew a large crowd of spectators to municipal courtroom yesterday afternoon and today.

Chester Lewis, 38, on trial in connection with a card game raid at the Union Depot hotel Dec. 23, cross-examined several witnesses yesterday afternoon and at frequent intervals during the proceedings voiced objections to questions asked by City Solicitor Kenneth A. Robinson, who represented the state.

Testimony in the case was completed shortly before noon and Municipal Judge Hazen, presiding at the jury trial, recessed court until this afternoon. The case was expected to go to the jury about mid-afternoon following closing arguments by the state and defense.

Lewis, the first of six men arrested in the raid to be tried, is charged with permitting gambling in a hotel operated by him. The others, who have also entered not guilty pleas, are charged with gambling.

Mr. Lewis testified he is a member of the Illinois bar.

Question of Stakes

The testimony centered around whether Lewis and the other men were playing cards for stakes. Mr. Lewis testified under cross-examination this morning he was not playing for stakes and that to his knowledge none of the other men in the "rummy" game were playing for stakes. Yesterday afternoon, two of the others arrested in the raid, A. C. Erskine of 466 Forest street and L. D. Dilman of Huntington, Ind., testified they were playing for "five cents a hand."

Mr. Lewis' activities as co-counsel in the case started while Mr. Jacoby was cross-examining Police Capt. Ora DeWees, the first witness placed on the stand by the state. Solicitor Robinson objected to Mr. Lewis taking part in the questioning and Judge Hazen sustained the objection, pointing out that it was a rule of the court that a witness could be questioned by only one attorney for each the state and the defense.

However, while the next witness, Police Patrolman Justin E. Cornelly was being questioned by Solicitor Robinson, Mr. Lewis jumped to his feet, objected to a question asked by Mr. Robinson, and remarked, "I'm taking charge of this right now."

Judge Hazen overruled the objection but Mr. Lewis conducted the cross examination of Patrolman Cornelly for the defense.

Testimony given by Capt. DeWees, Patrolmen Cornelly and Patrolmen Vic Gillis and Louis Kirts, who also testified yesterday afternoon, consisted chiefly of descriptions of the raid and identification of poker chips and a deck

OHIO PASTORS WON'T SUPPORT U. S. IN WAR

Resolution Expressing Stand Voted at Convention.

By The Associated Press

COLUMBUS, O., Feb. 1—Ohio pastors vowed today that "should our nation become involved in any war, the government need expect no encouragement or support of us pastors in waging war."

This was resoved at the concluding session of the Ohio pastors' convention, which elected Dr. Fred L. Dennis of Dayton's First United Brethren church as chairman of next year's convention.

"We not only declare that war is sin and that the United States must keep out of this war," but we pledge our support to the U. S. government in its present effort to keep us out of war," the resolution added.

Another resolution by Rev. Anderson Brown of Delaware objected to President Roosevelt's appointment of Myron Taylor as his personal representative to the Vatican.

The pastors pledged cooperation with law enforcement agencies in cleaning up all forms of gambling, including bingo games, and in other resolutions urged:

Consideration be given to objectors of military training; that heavy military expenditures be curtailed; exploitation of war for private gain be prevented; and that the reciprocal trade policies be continued.

FINNS CHECK RED ASSAULT

Renewed Attacks in Northern Sector Turned Back by Defenders.

By The Associated Press

HELSINKI, Feb. 1 — Renewed Russian attacks in far northern Finland, both in the Salla and Petsamo districts, were thrown back by the Finns, the Finnish high command reported today.

The Russians also were thrown back with heavy losses after making several attacks on an island held by the Finns on the northeastern shore of Lake Ladoga, the communique reported.

This Arctic fighting took place yesterday, the Finns stated. They reported "lively patrol activity" elsewhere on the eastern front.

Planes Kill Score

The Russians killed "about a score of civilians" and wounded 40, the Finns said, in air raids yesterday on the "market town" of Rovaniemi.

The Finns reported that they shot down two Russian planes during the day.

The Finnish command insists that its forces are holding defense lines decided upon immediately after the Soviet Russian invasion started two months ago.

The declaration came from General Hugo Oesterman, commander of the army under Baron Gustaf Mannerheim, at his headquarters "somewhere in Finland" —accompanied by reports of a fierce Russian aerial smash at the nerve center of northern Finland's communications and of a Finnish victory over a Siberian ski battalion.

Twenty-seven Red army planes, attacking in waves, were reported to have bombed Rovaniemi yesterday, leaving 15 dead and 60 wounded. Among the casualties, according to the Finnish report, were children and nurses. A hospital was said to have been shattered by bombs.

One hundred and fifty bombs were reported dropped on Rovaniemi, railway and highway junction in the northern "waistline" part of Finland, in the two-hour attack.

The killing of 300 Siberian soldiers, who had emulated the ski tactics which the Finns themselves have found so effective, was told of in dispatches from Danish war correspondents.

The remainder of the 600-man battalion was said to have escaped.

Heavy fighting was reported still in progress northeast of Lake Ladoga, where Finnish observers said recapture of the Finnish town of Pitkaranta permitted encirclement of Russian divisions out to flank the Mannerheim line on the Karelian isthmus.

General Oesterman asserted that Russian troops had failed to advance at any point beyond lines chosen by Finns for their major resistance. He declined to estimate either Russian or Finnish casualties in the two months of combat.

Finland's daily communiques have specified a total of more than 12,000 Russian dead to date but have acknowledged no specific number of Finnish military casualties.

Marionites are going to be more than usually interested in the appearance Friday of the chap pictured here, Mr. Arctomys Monax, alias Marmota Monax, alias Groundhog, alias Woodchuck and in South Africa, alias aardvark.

Having weathered the coldest winter since 1936, a lot of folks are anxious about Mr. Monax's annual show.

Every year on Feb. 2 rural tradition says that the chap crawls out of his burrow and does or does not see his shadow.

The weather man evades the issue in today's forecast.

Omitting reference as to whether the skies will be clear, cloudy or partly cloudy, he limits his prognostication to a light snow tonight and Friday and colder weather Friday.

If he sees his shadow tomorrow he's supposed to retreat to his underground apartment and doze for another six weeks. That will mean d late spring. (Note: If February, 1940 follows the 1939 style of weather Marion will have as many zero and sub-zero nights as there were last month.)

If the chap doesn't see his reflected image there will be an early spring.

The American Museum of Natural History says there is some truth in the groundhog legend, and explains it this way: The woodchuck would see his shadow on a bright day—probably a clear, cold one, with no clouds and no rain in prospect to wash away the snow and hasten the springtime.

Even groundhogs make mistakes, though. A lot of them come out too early—like Easter paraders determined to wear their new outfits and the weather be hanged—and they are likely to face starvation or to be frozen to death.

DISTRICT SOCIETY MEETS IN MARION

Thirty Presbyterian Churches Represented in Session.

Practically all the more than 30 churches were represented at a meeting of the executive board of the Marion Presbyterial Society, Kenton district, yesterday at the First Presbyterian church. The district includes Marion, Wyandot, Delaware, Union, Logan, Champaign, Hardin, Morrow and Crawford.

Mrs. Lelia Irwin of Huntsville, president of the society, presided for the meeting which was attended by approximately 50 women. The morning session was in the form of a retreat and in the afternoon plans were made for a meeting to be held here Feb. 27, when the newly-instituted department of social education will be presented to the women by a representative of the National Board of Missions.

Taking part in the retreat were Mrs. Herlin Bradford of Galion, who conducted the devotional period assisted by Mrs. T. A. Patterson of Crestline; Mrs. H. G. Finney of Mt. Gilead; Miss Anna Sterns of Ostrander; Mrs. Hutchinson of Delaware; Mrs. Mitchell of Bucyrus and Mrs. S. L. Surface of the First Presbyterian church, Marion. Completing the morning session was a review of the study book, "Homeland Harvest," by Mrs. Otis Wells of Bellefontaine.

The spring meeting of the presbyterial will be held April 17 and 18 at Bucyrus.

ACCIDENT VICTIM STILL CRITICAL

Tokyo Foreign Minister Makes Charges at Parliament Opening.

POLICIES EXPLAINED

Attitude Toward U. S. and Other Foreign Powers Is Outlined.

By The Associated Press

TOKYO, Feb. 1—War Minister General Shunroku Hata declared today that Soviet Russia had committed "scores of illegal acts" after conclusion of the truce on the Manchoukuo-Outer Mongolia border and that Japan's army "therefore, is not relaxing its watch."

General Hata made the statement in an address to the opening session of the diet (parliament), following the foreign policy report of Hachiro Arita, foreign minister, who expressed Japan's hope of putting her trade relations with the United States back on a treaty basis.

Japan's army and navy asked parliament to approve a new seven-year arms program costing about $871,000,000.

The appropriation, for the "replacement and rehabilitation" of arms, would be in addition to a total of $1,802,017,680 which already has been approved for this purpose.

The appropriation also would be in addition to the China "war and domestic military budget" for 1940-41 which total $1,383,478,000.

The foreign office, meanwhile, issued a brief communique on the breakdown of Russian-Japanese negotiations at Harbin, Manchoukuo, reporting that the mixed boundary commission had decided to adjourn and leave the question of demarcation "to be decided at a later date."

Arita's address, the annual foreign minister's report at the opening session of the diet (parliament), canvassed the whole range of Japan's international relations. Unlike last year, when the diet applauded wildly over plans for Japan's "new order" in east Asia, Arita's summary was met with dead silence.

Without setting forth concrete plans, Foreign Minister Arita outlined these general themes of Japanese foreign policy:

The United States

Arita expressed hope that a new treaty could be concluded to end the day-to-day status of Japanese-American trade as a result of the United States' abrogation last Friday of the 1911 commercial treaty with Japan.

"The treatyless situation, which deprives trade of stability and makes relations in general difficult, is not desirable for either Japan or America," he said.

Third Powers in China

The foreign minister disavowed any Japanese intention to eliminate "legitimate rights and interests of the United States and other third powers."

In connection with the new order in East Asia" he said, "I should like to add that although there are some who suspect Japan of an intention to eliminate the rights and interests of third powers in China, the Japanese government, as has been repeatedly enunciated, has absolutely no desire to do away with the rights and interests of third powers in China."

Soviet Russia

Arita said Japan would search for "concrete and practical solutions" to the main issues—primarily trade and boundaries—separating the two nations.

He made no reference, however, to the failure of the Japanese-Russian demarcation committee to find a basis for settling disagreements over the boundaries of Soviet Siberia, sovietized outer Mongolia and Japanese-protected Manchoukuo.

China

Arita declared the new central government with Wang Ching-wei Chinese premier now at odds with Generalissimo Chiang Kai-shek, as premier would be established in the near future.

Great Britain

The foreign minister said Japan was doing her "utmost" to settle satisfactorily the incident Jan. 31 when a British warship took 37 German passengers off a Japanese liner.

Some observers foresaw a compromise solution of the issue which has aroused sharp feeling in Japan.

Germany and Italy

Relations with Germany and Italy "have grown increasingly cordial ever since the conclusion of the anti-comintern agreement," Arita declared, adding that Japan's "policy of defense against the comintern remains unaltered."

He cited Japan's gratitude to Germany and Italy for their "sympathy and support" since the beginning of "the China affair."

Names of Aerial Aces Unrevealed in Europe's War

PARIS — (Correspondence of The Associated Press) — The French army of the air" declines to have a hero.

Sky-riders now on trails blazed by the aces of the World war remain completely anonymous.

But there are aces in this war, pursuiters who outfly and outfight opponents and have each accounted for three or four German planes. Their fame does not extend beyond the circle of their air force comrades.

There are several reasons:

First, it is still early in the war and military men believe too little action has occurred.

Then, in the interest of military secrecy the air force prefers to withhold news of its performances.

Finally, morale is one of the most important factors in a flying unit and the spirit of the French aerial army is that of the three musketeers—"All *for one, one for* all."

The closest approach to hero-making for aviators of this war was publication in the official journal of appointment to the legion of honor of Lieut. Robert-Jean Huvet, with this citation:

"Remarkable officer, whose modesty is equaled only by his bravery. Distinguished himself particularly Sept. 30, 1939, by bringing down two German pursuit planes during a single combat.

Since then, Huvet has fallen back into the obscurity of his fellow fliers.

The heroic tradition, however, is strong in the French air force.

Georges Guynemer, World war ace who fell to his death fighting Sept. 11, 1917, after winning 53 victories over German planes, has remained a national hero.

The anniversary of his death is observed each year at air bases throughout the country with the reading of his last citation: "Legendary hero, fallen at the height of glory."

Other aces who flew with him are commanders in this war.

YOUR HEALTH

BY LOGAN CLENDENING, M. D.

What We Don't Know

ONE OF the reasons that I cannot bring myself to take the extreme alarmist view of the common cold is that I do not believe any serious complications occur from it. The scareheads of pneumonia, sinus disease and middle ear infection are waved in front of the poor victim who is told he must "watch" the cold to prevent these things. What "watch" means nobody knows.

So far as pneumonia is concerned, if what is thought to be a cold "runs into" pneumonia, it was pneumonia from the beginning. This opinion of mine was challenged some time ago by the commissioner of health of Massachusetts, who told me that "they thought" at the Harvard Medical School that a great many cases of pneumonia developed from the common cold.

No Certain Method

Colds may pave the way for sinus infection and throat infection that leads to middle ear infection, but since people with sinus disease "catch cold" very easily, it is very difficult to disentangle the data. Nor do I find any certain method by which these complications can be avoided if the common cold occurs, except possibly by staying in bed.

I am willing to offer a personal reward of a thousand dollars for anybody who can prove that pneumonia was caused by the common cold. Full data must be submitted and the decision left with the writer of this column.

Under treatment and prevention, the first thought is of immunization by an antitoxin or anti-serum, such as is used in other infectious diseases. Unfortunately, we do not know positively the cause of the common cold and, therefore, we have no positively certain immunizing agent. It is believed to be due to a virus, but it is not certainly proved. Even if so, we are still in difficulty because the virus diseases present considerable perplexities in their immunity reactions.

Hard to Get At

The germs for which we have good anti-sera live in the tissue spaces. Viruses live inside the cells and are hard to get at. Under any circumstances, there is no valuable anti-virus vaccine against the common cold yet available.

In treatment, rest in bed is always preached but seldom practiced. In children it certainly *should be carried out.* The incidence of colds in children is the highest of any age, and the economic loss from putting a child in bed is practically nil.

Drugs give some relief, as do fruit juices, hot mustard footbaths, sweats and inhalations.

But the final study on the value of drugs was made by Dr. Diehl, at the University of Minnesota, who passed out white capsules to a large group at the Student Health Clinic. Capsule A had aspirin and phenacetin; capsule B had codeine, and capsule C had sugar. He asked all the students to report the amount of relief. They did not know what was in the capsules; they all thought they were taking the same thing. The results showed that the only marked relief obtained was from the codeine capsules.

U. S. Refunds $49,413,686 for Overpayment of Taxes

By The Associated Press

WASHINGTON, Feb. 1—Supreme Court Justice Murphy and Mrs. Henry Morgenthau Jr., were listed today among thousands of taxpayers who gave Uncle Sam too much money and got some of it back.

Murphy was awarded a $1,788 refund on his income tax and Mrs. Morgenthau, wife of the treasury secretary, $536 in gift taxes.

These debates were a tiny part of a $49,413,686 tax refund melon cut by the treasury, during the fiscal year which ended last June 30. The largest refund was $1,345,292 to the trustee of the International Match Corporation, New York.

The many smaller ones went to such people as Alfred E. Smith, $780; Frederick B. Snite Jr., the Chicagoan who lives in an "iron lung" and his wife, $1,840; Ambassador Joseph E. Grew, Tokyo, $12,880, and Marlene Dietrich, the movie star, $37,002.

The refunds were due chiefly to such things as bad addition and failure to take various kinds of legal deductions.

Among the larger refunds was $948,114 to the Brown-Williamson Tobacco Corporation, Louisville, Ky. This represented over-payment of tobacco taxes and was returned through three collection districts, Kentucky, Virginia and North Carolina.

Nearly 600 Ohio taxpayers—individuals and corporation—received refunds.

Stander, Mansfield, $5,840; Buckeye Pipeline Co., Lima, $14,831; C. E. Edgington, Findlay, $1,073; James M. Dickson, Mansfield, $2,301; McComb Farmers Cooperative association, McComb, $1,003.

Flush Kidneys of Acid and Poisons

Gain In Health And Stop Getting Up Nights

When kidneys are continually overburdened they often become weak—the bladder is irritated—often passage is scanty and smarts and burns—sleep is restless and nightly visits to the bathroom are frequent.

A safe, harmless and inexpensive way to relieve this trouble and help restore more healthy action to kidneys and bladder is to get from any druggist a 35 cent box of GOLD MEDAL Haarlem Oil Capsules and take as directed.

Don't be an EASY MARK and accept a substitute—Get Gold Medal Haarlem Oil Capsules—the original—the genuine right from Haarlem in Holland. Look for the Gold Medal on the box—35 cents.

Remember—other symptoms of kidney and bladder trouble may be backache, puffy eyes, nervousness and leg cramps.

Finnish People Need Your Help

We, in America, have been liberal in praise of Finland because that nation has been paying its debt to us while other nations have defaulted. They say that what they have been doing is what any honest person will do, and hence why be cheered for doing one's duty.

Those whose privilege it has been to know the Finns individually both in this country and in Finland, have not been surprised either at their debt payments nor the bravery exhibited in the current ruthless invasion of their land. A Finn is a determined, independent, physically fit person, who stands for the right of individual expression and yet recognizes the significance of cooperation under certain circumstances.

The world needs to preserve such a people. We can help by making a monetary contribution to the Finnish Relief Fund to aid the civilian population in these critical days.

Contributions may be made in Marion through any of the local banks, The Star office or the local chairman, George E. Planck, at his office in the Palace theater. Contributions may be made either in person or through the mail.

FACES U. S. CHARGE IN MAIL BOX CASE

Marion Co. Man Taken to Federal Court at Toledo.

A charge of "malicious destruction of mail boxes" has been filed in federal court at Toledo against Charles Osborn, 28, of near Caledonia, who was arrested Sunday by Deputy Sheriff W. H. Willis after he allegedly knocked down rural mail boxes with his automobile.

He had been held in county jail and late yesterday was turned over to Reuben Spiess of Toledo, United States deputy marshal. Marshal Spiess reported that Osborn probably would be arraigned at Toledo today before Frederick Gaines, United States commissioner.

Marshal Spiess said Osborn probably will be bound over to the federal grand jury.

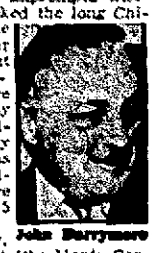
N. Y. Fooled As Barrymore Plays Role Straight

By The Associated Press

NEW YORK, Feb. 1 — John Barrymore, the great ad libber, is back in town, but he doesn't ad lib here any more.

Broadway's playgoers obviously were licking their chops last night for some of the impromptu wisecracks that marked the long Chicago run of the farce, "My Dear Children," but the unpredictable Barrymore fooled them by playing his leading role mostly "straight." It was his first Broadway appearance in more than 15 years.



John Barrymore

Early today, he left a cabaret (the Monte Carlo) with Elaine Barrie, his estranged wife, and that started tongues wagging as to whether a renewal of their tempestuous Ariel-Caliban romance was in the offing.

Elaine was in the restaurant when Barrymore and his daughter, Diana, arrived after his show. She came over to their table, and Diana left it, in somewhat of a huff, spectators thought.

Barrymore father and daughter went into a huddle, and emerged beaming. Soon after John and Elaine left in a taxicab.

When Barrymore made his first entrance in the play, he winced once or twice at a noisy guffawer in the gallery. Later, he gulped a long drink and declared he wished it were real. When one of the daughters said, "Father, I have to have some money," he confided to the audience, "of course, that is the lousiest line in the play."

At the end of the play, when Barrymore came on stage to acknowledge the enthusiastic applause, a man in Hamlet costume, his face painted in the white and black mask of a clown, leaped across the footlights and began babbling to Barrymore about Shakespeare.

Barrymore took him by the neck and escorted him into the wings. The man, identified as an unemployed actor, was arrested on a disorderly conduct charge.

The critics were unanimous in their approval of Barrymore's work.

FORMER MARIONITE CRITICALLY INJURED

Mrs. Shirley Jasmund Is Near Death in Michigan Hospital.

Mrs. Shirley Mae Clagett Jasmund, 26, of Adrian, Mich., daughter of Mr. and Mrs. Fred Clagett of 317 Silver street was reported near death today in the Tecumseh, Mich., hospital following an automobile accident Sunday near Adrian.

Mrs. Clagett went to the hospital Sunday night and Mr. Clagett and their daughters and son-in-law, Miss Betty Clagett and Mr. and Mrs. Claire Keller of Prospect went last night following receipt of a telegram from Mrs. Clagett that Mrs. Jasmund was "sinking rapidly."

According to reports received here, Mrs. Jasmund suffered severe scalp injuries when she was thrown from an automobile when it was struck by another car which came onto the highway from a side road. One hundred and fifty-four stitches were required to close the scalp wounds. In addition she suffered a crushed chest, three broken ribs and a broken collar bone.

Mrs. Jasmund, her husband, Walter, who is a barber in Adrian, their daughter Judith Ann, 3, and Mr. Jasmund's mother were taking an afternoon pleasure ride when the accident occurred. It was reported that the car coming from the side road struck the right side of the Jasmund car, the side on which Mrs. Jasmund was sitting, and that she was thrown from the car.

Mr. Jasmund suffered a possible brain concussion and a broken knee cap, and his mother's jawbone was broken. The child, seated between her parents, escaped with minor cuts. All are in the Tecumseh hospital.

Mrs. Jasmund, a Harding High school graduate, has lived in Adrian since her marriage seven years ago.

FACTORY FOREMAN CLAIMED BY DEATH

Stephen Chizmar Passes Away at Henry St. Home.

Stephen Chizmar, 52, a foreman at the American Malleable Castings Co., died last night at 6 at his home at 710 Henry street after a four-month illness.

Mr. Chizmar was foreman in the core department of the foundry.

He was born in Hungary on Aug. 20, 1887, son of John and Anna McCransky Chizmar. His marriage to Miss Mary Popp took place 28 years ago in Toledo. They came to Marion 11 years ago from Toledo.

Surviving with the widow are five children, Helen, Mary, Julius, Joe and Louis, at home, and a brother, John of Toledo.

He was a member of St. Mary Catholic church, where the requiem mass will be celebrated Saturday at 9 a. m. Burial will be made in St. Mary cemetery. Friends may call at the M. H. Gunder & Sons funeral home on West Center street until 7 tonight and at the home after 8.

Packed in dried sand, a lung fish recently was shipped alive from Africa to a Chicago museum.

TESTS AT WORLD-FAMOUS HOSPITAL reveal one of greatest discoveries ever made about

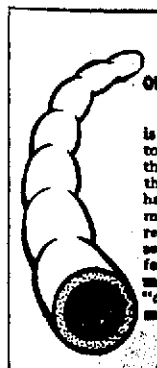
CONSTIPATION

16 Scientists Find Way To Actually Produce Nature's Own Daily, Gentle, Pleasant Bowel Action!

MILLIONS OF SUFFERERS from indigestion, sick headaches, sallow muddy skin, dull eyes, nervousness, "the blues," that "always tired" feeling resulting from Constipation should benefit by this famous formula.

HERE'S marvelous news for constipation sufferers! Results from 9 months' scientific tests in one of the world's most famous hospitals have at last proved there IS an IDEAL "daily" treatment for constipation. 16 Scientists took part in this clinic. Over 1470 experiments were made.

Tests showed many cathartics, purgatives, laxatives and harsh roughage products only "irritated" the bowel into action and resulted in bigger and more frequent doses having to be taken. After a time some products even made the condition worse.



ONE OF THE CHIEF CAUSES OF CONSTIPATION—is a "clogged" colon due to lack of moisture in the colon. Waste matter then becomes caked, dry, hard and difficult to move on. Don't fail to read how Scientific research discovered an effective way to provide more gentle complete "daily" bowel movements.

SUCCESS AT LAST!

For over 40 years millions and millions of folks have been taking a "little daily dose" of Kruschen and many wrote in letters praising it to the skies. These scientists wanted to find out WHY. So they started experimenting with the "little daily dose"—a half to one teaspoonful in a glass of water in the morning—and what an astounding discovery they made!

And just listen to this!—Kruschen now also comes in effervescent form—sparkling, "bubbling"—and makes one of the most refreshing, delightfully pleasant bubbling drinks you ever tasted!!

WHAT A DIFFERENCE!

Imagine these scientists' joy when they discovered what a difference Kruschen made! No violence. No griping or nausea. No purging. Just gentle, soft, yet most satisfactory and complete movements without the slightest irritation.

Not in one test above did the dose have to be increased.

In fact these doctors and chemists reported: "We consider this one of the most important investigations we ever made and that this small daily dose of Kruschen is a MOST SATISFACTORY aid to keep the colon sweet, clean and free from poisonous matter—Kruschen can be taken every day for years with no necessity to increase dosage."

HOW IT WORKS

You see if waste matter in the colon isn't kept moist—it becomes hard, dry, caked and results in constipation. These scientists discovered that a little daily dose of Kruschen actually PRODUCES NATURE'S OWN GENTLE PLEASANT BOWEL ACTION by keeping the waste matter moist and soft and makes it easy to expel. More gradual than Milk of Magnesia waste in the colon at last is enabled to bloat, "ferment" and poison the system, which, in the end, ALSO can set up a mild caused and kidney irritation.

MISERIES

The low cost of this home treatment will amaze you. A jar of Kruschen lasts weeks and costs but a trifle. Take a half to one teaspoonful in a glass of water—don't miss a morning. And, if because of constipation you're feeling depressed, dull in mind with sluggish nights—you should soon begin to feel like a new person—frisky as a puppy—whole world brighter and gayer! Don't fail to get a jar TODAY. Over 245,000,000 jars of Kruschen have been sold by druggists THROUGHOUT THE WORLD. No wonder scientists wanted to find out WHY Kruschen did so much good for so many! THEY did and YOU should too, once you try it. And now that Kruschen comes in pleasant tasting "bubbling" form you, too, should get quite "the little daily dose"!

GREAT NEWS!

Kruschen, made right here in U.S.A., now comes this 3 way delightful method. Starting tomorrow get Kruschen in the new "bubbling" form.

Germany—Marching Somewhere

PICTURES of Adolf Hitler are reported in heavier demand as Germans trudge into the sixth month of their fuehrer's war to restore national pride. Pictures of Germany are in demand too, but they can't be supplied.

Hitler's speech on the seventh anniversary of his accession to totalitarian leadership provided no new clue. The plain truth is that what Hitler says no longer matters; it is what Hitler has done and is doing that counts. His voice is no more than a peal of thunder in a storm.

He has led his nation into a war that can not be won. He has plunged Europe into a war that can not be won. He has destroyed hope in a vast part of the world's population and planted despair and bitterness in its place. But Germany, apparently, still believes in him.

This is hard to understand. It must be hard for many Germans to understand. But the triumph of the leadership principle to date is that no one can know what goes on behind its bristling exterior. Perhaps Germans are content merely to be marching somewhere; they marched into war: they will march through war; they will march into what comes after war. It is the highest destiny they have been able to discover for themselves as a nation—yet.

Prelude to First Robin

BY courtesy of the sports department, it is now possible to speak officially about spring. Reminders are being published daily, or almost daily, in the sports pages that spring is imminent. Be careful not to step on that crocus, friend.

The baseball boys are shucking off their hunting coats, rubber boots, whiskers and waistlines. Some of them have beamed on us from hot baths, just the thing for reducing. Thanks to Judge Landis, the Philadelphia Athletics have paid a lump of cash for an infielder guaranteed to be the real McCoy. There is a stirring at the grass roots.

This sort of thing will go on till about the last third of February, only a few weeks away. Then the pitchers will be off to training camp. In March the more ordinary talent will join them there. Before April has had time to be a distinct disappointment, they will be back, beautifully tanned. The major league season will be under way and it will be summer again. In the meantime, don't forget to shovel the snow off the front sidewalk.

Wings

WITH considerable skepticism, non-combatants marked for extinction from the air have listened while experts explained exactly what was going to happen. They have scuttled in and out of air raid shelters, gasped for air in *gas masks and, not entirely incidentally, have* given their consent to ever larger appropriations for armies and navies. But they weren't entirely convinced.

It would be odd if they didn't notice the aerial aspect of the war in Finland under these circumstances. Russia's superiority is beyond doubt—in the air. Its planes have bombed Finnish objectives relentlessly and successfully. More damage by far has been done behind the front than on it, to the extent that Russia may win the war with bombers while losing it with soldiers. If the Finns were equipped to fight in the air as they have been fighting on the ground, Russia would be doomed. Not only its army but its civilian population would be demoralized.

The airplane's place in war still is not finally determined. But Finland—and before Finland, Poland—have seemed to demonstrate that it cannot be over-rated.

That's the Limit!

SPEED limits on rural highways during the last 25 years have nearly doubled, proudly reports International Association of Chiefs of Police. Reasons assigned are reductions of driving hazards, speed control programs and better and faster automobiles. At the moment, 45 is the common limit, but a few "progressive" states have edged up to no limit at all.

However, in estimating the causes of constantly higher speed limits during the last quarter of a century something might be said, also, about the psychological factor. It still is revealed by contrast in the maligned form of the Sunday driver, who may prove useful yet.

There were cars 25 years ago capable of being driven far more rapidly than they ever traveled. It took a long time for Americans to nurture the notion that it was necessary to move at a faster clip than 20 miles an hour to get where they were going. The Sunday driver still thinks that way. Being out for a ride is all the pleasure he wants; his craving for blending the landscape into a blur remains stubbornly undeveloped. He is content with his lot, which is to pick up the fragments after the smash.

It may prove to be a higher destiny than he realizes, if speed and progress continue to be used as synonyms. After all, the fastest machine in the world today is a bombing plane.

On The Record

Miss Thompson Charges Nazis with Deliberate Planning of Crime and Brutality.

By DOROTHY THOMPSON

THE difficulty in telling the truth about the Nazis is, and always has been, that the truth is so monstrous that the ordinary human being cannot bring himself to believe it.

The greatest advantage that the Nazis have had in this world is the incredulity of the human race.

Men and women who have been brought up under the standards of western civilization, *who take for granted, as they take the air they breathe for granted, certain ethical, social and legal principles and codes of behavior can not envisage a society in which every one of these principles is programmatically abandoned.* Since the aim of western society has been to build on and cultivate the good instincts of the human race, they can not imagine a society that is systematically erected on the evil instincts of the human race. They can not imagine a society in which murder is an instrument of national policy; in which corruption is part of *a planned program*; in

Dorothy Thompson

which brutality is not merely released but taught and engendered as a useful racial characterization; in which looting—*mass* thievery—is not an aberration but an integral part of the system.

They can not imagine a condition of affairs in which it is a crime to be good and a virtue to be evil. In other words, they can not imagine the total revolution, in which every value is reversed.

When this phenomenon—the reversal of every value—occurs in an individual, we say he is insane. When this reversal of every value *expresses itself in action* by such an individual, we declare him to be criminally insane. The asylums of this country are full of people who can discuss any subject with complete logicality, but who completely lack the power to distinguish between good and evil. If a court finds that a man who has committed a criminal act can not distinguish between normal and abnormal, crime and virtue, he is declared irresponsible and locked up in a mad house instead of a prison.

This idea we can grasp. But the idea of a criminally insane society is beyond the reach of *our imagination.*

It is not beyond the reach of Mr. Hitler's imagination. Perhaps his is a criminally insane imagination. Or perhaps it is only a criminal imagination. But the truth is that the monstrous things that are happening in Poland and that have at last been revealed to the world through the report of the Cardinal Primate of Poland to Pope Pius XII are not aberrations, but have been planned from the beginning.

In 1936 I met a prominent European friend, who is a citizen of one of the small neutral states. He was an acquaintance of Gen. Goering, and only a fortnight before we met he had spent three hours with the general in open and "friendly" conversation. The general—this was in the fall of 1936, and I immediately wrote down the conversation in my diary—told my friend that a war was coming the like of which the world had never seen. He said: "In this coming war there will be no respect whatsoever for neutral rights. I warn you that if it is to our advantage we will occupy your country. If the order comes from us to permit it, I advise you to accept, in the interests of your country. Then it is possible that you will be rewarded later by getting your country back. We intend to take the lands to the east of us. We need new soil for the growing German population." My friend remarked that the land to the east and south was already occupied, indeed, was very closely settled with an indigenous population. The general laughed and answered gayly: "Die werden wir ausfegen" — "We shall simply sweep them out."

Hair On End

My friend said: "The general was courteous, charming, and I left his presence with my hair standing straight up on my head. I am convinced he meant it, but when I tell it to my countrymen they laugh."

Now comes Hermann Rauschning, the former president of the Danzig senate, a former Nazi, and once in the confidence of Hitler, who, revolting against the apocalyptic vision of the destruction which Hitler would inevitably visit upon Germany and upon Europe, left his country to warn the world.

Again, Rauschning suffers from the incredulity of his readers. "Such things can not be so," is a normal reaction.

The advantage that Rauschning has is that his predictions up to date, based wholly on what he knew from inside the Nazi party ranks, have come true. He predicted, for instance, the Nazi-Bolshevik alliance and sketched for a horrified and doubting world the form that German colonization would take.

In his last book, just about to appear, called "The Voice of Destruction," Rauschning recalls conversations which he had with Hitler and with other party leaders during the time when he was in their confidence.

Paul Mallon, writer of "News Behind The News," is ill. His daily column will appear again soon.

Swiss Troops on Skis

Their Value Is Boosted by Success of Finns.

A Soldier's Life in Switzerland

Associated Press Feature Service

BERNE, Feb. 1—Like to dig trenches in the glacial ice 11,480 feet up on a Swiss Alp, at night, in a gale, with the mercury 18.4 below? No? Then thank your lucky stars you're not in the Swiss ski troops.

If you were Swiss and liked to ski you'd be among them, for all Switzerland's skiers are doing their military service in units that think nothing of a job like that.

Switzerland has always had a large part of her army on skis during the winter. But now that the Finnish ski troops have made life miserable for the Russian army, the Swiss high command is paying even more attention to the Swiss ski units.

Ordinary troops on lowland posts have also been put into ski classes and are learning to scout, shoot and march on skis.

Snow Helps And Hurts

Winter snow near the borders of warring France and Germany is an ally the Swiss high command is delighted to have. But the heavy snow on the mountains near neutral Italy is no help at all.

Snow has made the Swiss side' corridor around the Siegfried or Maginot lines a tough proposition for either the French or the Germans.

North of the Italian frontier, however, snows threatens to close many a highway and railroad. In normal times the Swiss don't even try to keep these routes open. But now Italy is Switzerland's only neutral neighbor and the Swiss need all the routes with Italy they can maintain.

Snow 16 Feet Deep

Accordingly, the Swiss high command has ordered a number of mountain units to fight the snow in the Ober-Alp pass and keep the rail line and highway there connecting the St. Gotthard pass to Italy with Germany open as long as possible.

Every winter the snow in that pass reaches a depth of 13 to 16 feet, but the mountain troops, working under the protection of giant snow-plows, hope to keep the pass open—except for avalanche days.

It's dangerous work, for the troops have only the fast, heavy snow-plows, whose motors are constantly kept running, to rush them away when avalanches start roaring down from nearby 11,000-foot peaks.

Mines Won't Cross Sea

No Danger of Them Floating to U. S., Experts Say.

By PRESTON GROVER

WASHINGTON, Feb. 1 — The navy experts on ocean currents say there isn't a dog's chance of a floating mine sneaking across the Atlantic into Yankee shipping lanes. But a mine loosed in the North Sea is likely to churn into almost any *place in that sea.*

We don't suffer from "mineophobia" but it occurred to us that if a mine slithered past our neutrality patrol and nestled against a Hoboken ferry boat in New York harbor in rush hours it would create a serious diplomatic incident.

In times past this country has been angered at the ocean management because it permitted the gulf stream to keep England warm instead of breathing its *tropic breath along our bleak New* England coast. But the ocean experts say there is a measure of safety in having the current flow that way. The inventor of the gulf stream must have had floating mines in mind at the time. The stream helps to keep Europe's wars to herself.

Two Years To Cross

It is true that if some of the floating mines got out through the English Channel they might find their way across, following the southern route by way of the Azores, but it takes a bottle with a letter in it about two years to make the journey. By that time a mine would be so encrusted with barnacles and other free-riding sea objects that it probably couldn't explode anyway. The gulf stream itself prevents mines from taking the northern route.

Just so you won't feel too safe, if any mines were released in front of Canadian ports, such as Halifax, the Labrador current might bring them down along our north Atlantic coast. Moreover, they would remain active for a longer time, because barnacles don't grow so fast in those chilly waters.

The navy has maps of every ocean current between the poles. For complex currents the tangle of little arrows that describe those in the North Sea can't all be put on one map. It takes 12 separate maps, one for each hour between high tides.

One floating mine loosed along the British North Sea coast might roam up and down from one end of the island to the other. Occasionally it might get into a little swirling current for a ride out into the North Sea and back before resuming its up and down cruise. It is a very discouraging prospect for a ship, to have mines ambling about that way.

Danger To U. S. Ships

England isn't quite sure whether floating mines or magnetic mines are giving her so much trouble just now but our navy is keeping an interested eye on the business. Much of our Atlantic coastal traffic follows the shallow lines close to the shore where it isn't necessary to buck the gulf stream current on the southward turn. The water is smoother there, sheltered in part from Atlantic storms. But it is in just such shallow water that the dreaded new mine works best.

The effectiveness of such mining is far greater than one would think. *The mines may get only* three or four ships a day, but it keeps hundreds of others from running the risk. Western bandits used to work on that basis. A bandit would jump suddenly into a frontier saloon on a lush Saturday night and get away with payrolls and prospectors' pokes. He could keep 50 men at bay by warning:

"Don't try to rush me. I can't stop you all but I will drop the first six." That was one for each bullet in his six-shooter.

Mines are like that. Every ship sunk by a mine means one mine less to worry about. But it is a hair-raising way to be rid of them.

10,000 Teaspoons

A president of the United States, in company with an economist, passed by a construction job. Said the President:

"I worry about that steam shovel. It does the work of 100 men with hand shovels."

Answered the economist:

"It's worse than that. It does the work of 10,000 men with teaspoons."

This story, attributed to Dr. Neil Carothers, is recalled by Justin W. Macklin in Nation's Business. Judge Macklin, assistant commissioner of U. S. patent office, says he has yet to find after 25 years of study an instance where the machine, taken over the long pull, has failed to create rather than destroy jobs in an industry as a whole.

When someone mentioned the ice industry and mechanical refrigerators, Judge Macklin retorted that manufacture of mechanical refrigerators now gives employment to nearly twice as many workers as ever were engaged in manufacture of ice. Not only that, but the ice industry has grown, because better refrigerators helped to creat a greater demand. Between 1920 and 1930 when millions of mechanical refrigerators were being sold, the number of ice dealers increased from 8,000 to 19,000.

Dade Co. Capers

They Talk About Cold Weather Though It Wasn't Bringing Disgrace and Shame to Us All.

By DAMON RUNYON

WE can remember when it would have been considered indelicate down in Dade county, Fla., to suggest that the weather was chilly especially during the winter season. If, by chance, there did happen to be a slight frost it was tactfully ignored.

We would all put on a few extra sweaters underneath the outer smock, where they would not be offensively visible, turn on the electric heaters in our humble homes and let it go at that. In those days down in Dade county, we considered our weather a private matter and were sensitive to any scandal over changes in the temperature.

Damon Runyon

That was the happy era when overcoats were impounded at Jacksonville and held under bond until reclaimed by the owners on their return north. Thermometers were not permitted south of West Palm Beach, save in the hands of duly registered physicians. We recall one notorious case of a visitor who smuggled in a tube of mercury, was caught in the act of taking the temperature, but he was promptly seized and deported.

We recall, too, the time a man from Ia built a home on our own Hibiscus Island lived there in apparent happiness until morning the police saw smoke issuing from chimney on his house. A raid followed and was discovered the man had a fireplace actually had a wood fire burning.

AT HIS trial the man alleged he built fire to keep warm. The suggestion it was necessary to resort to artificial means keep warm in Dade county was regarded proof positive that he was a pathological c

He was released with the warning to le Dade county and never return. There was so talk of prosecuting the contractor who instal the fireplace, but he proved he had been gros deceived by the owner, who told him the fi place opening was to be used as a pigeon co

When the contractor was asked by the amining committee if he had not considered idea of a pigeon coop inside a dwelling sor what peculiar, he said yes, but he got so m peculiar demands from persons building hou *that he could not stop to examine into* validity of each and every one. He said committee would really be surprised. He s he was half daffy trying to fulfill the perc demands of persons building houses.

Those were the good old days down in D county, when we all lived in a small but ha *colony in which the predominating atmosph* was that of genteel reticence about our intim personal affairs, such as the weather.

WE remember the time a chap from Bernardino, Calif., drifted into our co munity along with the breath of a coolish sp It was never charged that the Californ brought the coolness with him, you understa It was accepted as a matter of coincidence. impression that down in Dade county we v Californians with suspicions and hostility erroneous. On the contrary, we consider C fornians as good as anyone else as long as keep their place.

Anyway, such was our desire in those g old days to shield our weather from the v omous tongue of gossip that we placed Californian in a hastily improvised steam b and plied him with a local concoction of r and cocoanut milk, guaranteed to prod cauliflower ears and sometimes remove the h keeping him there until the coolishness had b dissipated. When he got out, the Californ said he had never experienced such a w climate. He has ever since been singing praises of Dade county, though he has ne been able to figure out what happened to ears.

THOSE good old days and that good old sp seem to be no more. With the start *1940 rush into that region, which we have* ready mentioned in this column as having literated old landmarks and old customs we complete effacement of the old climatic loya When a cold spell comes on down there, recently occurred, it is publicly mentioned w out restraint or even embarrassment, not o by visitors, but the established inmates of D county, themselves.

It is openly discussed in barrooms and ca and worse, in private homes. It is difficult believe, yet we are reliably informed the rec cold spell in Dade county was brought up a matter of dinner table chatter in some of *first families in the county, and without apol* It has even been mentioned in the local pu prints.

We suppose all this is in line with the gen decadence of the times. There is no m delicacy or restraint about anything. We h a man walked right down Flagler street week in an ulster, but we will have to h more than just rumor to credit that. Even happened he was probably just an exhibition

Old-Time Wool Workers Speedy

Peoples are rather apt to look on speed as exclusive characteristic of this age, but in t there was an interesting feat which seems be in the same class as today's high speed p duction methods. Those were the days of sen tional wagers, and Sir John Throckmorton, sporting Berkshire, England, baronet, made wager that he would sit down to dinner a p. m. in a suit made from wool that had b growing on the sheeps' backs at 5 o'clock t same morning. That meant that the time lowed for everything—making the cloth cutting and making the suit—was 15 hours.

At 5 o'clock on the morning of June 28, Southdowns were shorn, the wool was was carded, stubbed roved, spun and woven. cloth was scoured, fulled, tented, raised, shea dyed and dressed. Then the tailor got busy.

So carefully had preparations been made so quickly did all concerned work, that at 6 p. m. Sir John sat down to dinner in a p fectly fitting suit, produced from start to fin as laid down in the terms of the wager. He t won his bet with 1¾ hours to spare.

BATTLE IN HOUSE OVER FARM CUTS

But Little Hope is Held for Victory.

By The Associated Press

WASHINGTON, Feb. 1—House members from farm states decided today to put up a battle for several major items dropped from next year's farm appropriation bill, but they agreed their efforts probably were doomed to defeat.

The last ditch stand for a full schedule of farm expenditures for next year is expected to be made in the senate after the house has passed the bill late today or tomorrow.

Rep. Ferguson (D-Okla.), sponsor of today's strategy meeting, said that the group would support an amendment by Rep. Pace (D-Ga.) for restoration of the single largest item cut out of the bill by the house appropriations committee—$72,678,812 to supplement other appropriations for surplus crop disposal.

There were numerous expressions, however, to the effect that this move was certain of defeat because of the parliamentary situation in the house.

The appropriations committee knocked the fund out of the bill on the ground that congress had not previously authorized that expenditure. Fiscal authorities claimed that on that technicality they could block an effort to restore it.

The group, composed of more than 40 members from 22 states, also agreed to attempt to reinstate other items totalling about $75,000,000, mostly for farm tenant loans and benefit payments to sugar growers.

Chairman Jones (D-Tex.) of the house agriculture committee said the "temper of that house" was such that an effort to add $225,000,000 for farm parity payments would be futile.

The appropriations committee Tuesday approved a bill carrying a total of $634,374,756, compared with the current appropriation of $1,301,340,315 and with budget estimates of $788,929,519.

After Secretary Wallace described proposed cuts in federal farm expenditures as an effort to "scuttle the farm program," two southern senators joined a house bloc today in trying to restore the funds to this year's level.

Chairman Smith (D-SC) of the senate agriculture committee told reporters that he would make a vigorous fight to have parity payments written into the agriculture department appropriation bill.

Senator Russell (D-Ga) termed action of the house appropriations committee in clipping the farm measure to $634,374,756 as "atrocious and unpardonable."

Downtown, Secretary Wallace yesterday blasted at the house committee action with a statement that the proposed $154,000,000 reduction under budget estimates would inflict "a grave injustice" on farmers and would impair industrial activity and employment.

Although telling reporters that he did not wish to criticize efforts toward economy, Wallace said that an "interesting" political issue would be raised unless the cuts were restored.

"I want to put the farmer on guard against attempts of some congressmen to scuttle the farm program," he said.

GAS CO. WORKERS STRIKE AT TOLEDO

Men Walk Out as Efforts To Renew Contract Fail.

By The Associated Press

TOLEDO, O., Feb. 1 — The C.I.O. Gas Workers union struck at 7 a. m. today against the co-owned Ohio Fuel Gas and Northwestern Ohio Natural Gas companies.

Police reserves stood by as last-minute efforts to avert the strike failed. The union last night unanimously voted to walk out, and a final conference with company officials ended in a deadlock at 2:15 a. m.

E. W. Tharpe, general manager of Ohio properties, said emergency crews were being brought in from other cities to maintain local plants and service. He explained cold weather necessitated shutting off gas to industries.

Walter Ross, president of the local, said the gas company had rejected a union offer to furnish skeleton crews to man the local distribution points.

City Manager George Schoonmaker ordered police to furnish protection to workers.

Ross said about 200 employes were covered by a contract which expired last midnight. The union is seeking a new pact providing a union shop, straight seniority and wage increases. Company officials said the boosts would cost the firm $35,000 a year.

TEXAS QUADRUPLETS YEAR OLD TODAY

GALVESTON, Tex., Feb. 1 — Texas' youngest quadruplets had a shifting good time on their first birthday today.

A siege of colds prevented the Badgett quads — Joan, Jeraldine, Jeanette and Joyce—from having a party but no one hardly noticed it.

They were "at home" to the public as usual during the regular visiting hours and each got a birthday cake.

Each had her name lengthened.

Received a scholarship to Baylor University and the fund being raised here to build them a special home came within $100 of the amount needed.

The four little girls, with a combined birth weight of less than 16 pounds are normal and healthy in every respect.

Japanese Facing Serious Problem in U. S. Trouble

By DEWITT MACKENZIE

Joseph's coat of many colors didn't exceed in diversity the possible developments of moment in the Far East should America decide to impose an embargo on exports to Japan, thus cutting that country off from war supplies vital to prosecution of its conquest of China.

Should that blow fall the wise men of Tokyo would be called upon to provide a solution which must be immediate in order to avert a catastrophe for their country.

That is to say, they must be able by some hocus-pocus or other to pull from the hat alternative markets which at this moment aren't available. There can be no delay, for war waits on no man.

The American-Japanese quarrel revolves basically about Japan's policy of seizing politico-economic control of eastern China. Powerful interests in Japan have gone further and insisted that this domination be to the exclusion of western powers, though only today Foreign Minister Arita declared in the diet:

"I firmly believe that with the establishment and development of the new order, America will come to learn the absence of a desire on our part for either exclusion or monopoly in both economic and commercial fields."

Grave Incidents Result

In any event, development of Japan's policy — involving the conquest of China—has resulted in many grave incidents concerning American citizens and property and rights. Because Japan gave no satisfactory indication of abandoning these practices, Washington denounced the American-Japanese trade treaty and it expired last Friday. The way is now open for the imposition of an embargo if we so desire.

If Japan is cut off from our products by an embargo she either (1) will grant all our demands, cease her conquest of China, and throw overboard a policy which she perhaps regards as more important than any other in her history, or (2) will tell us to go hang, and will seek markets elsewhere.

I believe we can take it for granted that, while Japan might be willing to make concessions, she will not abandon without compulsion her policy or revert to the "open door" under which all foreign nations would have equal commercial rights in China.

Eyes Dutch Isles

That presumably leaves the alternative of finding somewhere else those vital supplies—the most important for war purposes being petroleum and scrap iron—which she has been getting from us. Indeed, the Japanese have said that they would seek other markets. But where?

The nearest large oil supplies are in the Dutch West Indies. Japan long has had her eyes on that region, and as a matter of fact Japanese officers speak openly of the possibilities of seizing these islands if America should cut Nippon off.

Another possibility would be an agreement with Russia under which Japan and the Soviet Union would divide China between them—Japan getting the eastern seaboard, and Russia the western part of the country. Tokyo doesn't want such an arrangement but might undertake it.

One can figure out other combinations but the essential point is that Japan undoubtedly will test every possible avenue of escape from her dilemma before surrendering and abandoning her policy of dominating eastern Asia. That's the Japanese Monroe doctrine.

CONSIDER FISHING CONTROL

By The Associated Press

COLUMBUS, O., Feb. 1—Drafting non-commercial fishing regulations for the coming season, the Ohio conservation and natural resources commission today considered a proposed universal ban on spring fishing and greater control of trot lines. The suggestion to close streams from May 1 to June 16 was designed to protect bass during the spawning season.

DRIVER'S HELPER KILLED IN CRASH

By The Associated Press

PITTSBURGH, Feb. 1—A 10-ton trailer truck racing out of control down an icy curve smashed into two buildings and burst into flame, killing the helper and injuring the driver.

Robert Kiser, 24, Cleveland, met death in the crash last night in suburban Wilkinsburg. Driver Clarence Moyar, 46, also of Cleveland, was pulled from the tangled mass of steel and removed to a hospital with a head injury.

Flames from the truck's broken gasoline tank spread through the cargo and into the buildings, causing an estimated $5,000 damage.

RIVER LEVEL DROPS

By The Associated Press

STEUBENVILLE, O., Feb. 1—The Ohio river today was at its lowest point here in 26 years, forcing curtailed industrial usage of water. The intake pipes of steel mills were out of the water and city officials, eying ice gorges up and down the river, said another sub-zero period would precipitate a severe shortage.

TO PLEAD INNOCENT

PAULDING, O., Feb. 1—Sylvester Wiada, 21, of Sherwood, has decided to change his plea to innocent in the kidnaping of Richard Ball, 19. Louis Strake, 33, his alleged accomplice, was shot to death by Ball's father, Oscar, as Strake threatened to kill the son in front of the Ball home.

C. OF C. TO APPOINT DEFENSE BOARD

By The Associated Press

COLUMBUS, O., Feb. 1—Ohio Chamber of Commerce directors have authorized A. Graves Williams of Portsmouth, chamber president, to appoint a national defense committee for Ohio to represent industry, agriculture, public utilities and mining "to forestall regimentation of industry in case of a national emergency."

The directors, voting opposition to governmental control of industry during an emergency, acted to set up the organization to insure "an adequate service of supply." A statement said:

"The board held that business should take time by the forelock and begin now to prepare for an emergency, with an adequate service of supply operating on a voluntary basis rather than on a mandatory one."

BELIEFS BLASTED BY NEWS SURVEY

Many Old Fetishes Disproved by Study.

By The Associated Press

COLUMBUS, O., Feb. 1 — Scientific study of newspaper reader habits blasted "a lot of old fetishes" about public interests, position and display, Frederick Dickinson of Chicago told Ohio publishers today.

"For years there was prevalent the idea that a right-hand page was read more intensively than a left hand page," said Dickinson, who is western manager of the American Newspaper Publishers association bureau of advertising.

"Our studies have shown that if there is any difference between the two, the favor is slightly on the side of the left hand page.

"The really surprising fact is that our continuing study of newspaper reading has shown that no matter where it appears or how deeply it is 'buried' a news item or advertisement of real interest will be read by a high percentage of the newspaper subscribers."

Dickinson spoke at a luncheon of the Ohio Select List for visiting publishers. Their meetings, which continue through Friday, include sessions of the Ohio Newspaper association, Associated Ohio Dailies and Buckeye Press Groups (weeklies).

WILD RIDE LANDS WRITER IN JAIL

Adela Rogers St. Johns Nabbed in Taxi.

By The Associated Press

NEW YORK, Feb. 1 — Adela Rogers St. Johns, the writer, turned taxi-cab driver for a few minutes in the wee hours today, but the experience landed her in the clink:

Patrolman Harper Kitching, who arrested her, said this is what happened:

She got into a cab in Manhattan and told the driver, Benjamin Rosenfeld, she wanted to go "out to Long Island." They started out, but when Rosenfeld asked her where precisely she wanted to go she refused to give him a definite answer, so he pulled up to a curb in Long Island City and went into a store to telephone.

Adela got out of the cab, jumped behind the wheel of another, the motor of which was running, and drove off just as the cab's driver, Francis D'Aiello, ran up.

The two drivers jumped into Rosenfeld's machine and away they sped in hot pursuit. Before they could catch her, however, Patrolman Kitching had ordered her to pull up to the curb and took her to a nearby police station.

She was booked on charges of driving while intoxicated, driving without an operator's license and passing a red light.

The state concluded its testimony late yesterday afternoon and court recessed until this morning after Judge Hazen overruled motion for a directed verdict for the defendant.

At the session this morning, Mr. Lewis and P. C. Edwards, an employe of the Union Depot hotel, testified that the officers forced open a door leading into the room.

FLORIDA GARDNERS REPLANTING CROPS

By The Associated Press

MIAMI, Fla., Feb. 1—Stringing emergency headlights on their tractors, farmers in the rich Florida redlands are working 24-hour shifts replanting the winter vegetable crops destroyed by last week's disastrous freeze.

They are battling against time to get new crops ready for the market ahead of competing farm sections farther north.

Every day they save means money in their pockets, because prices are most profitable during the relatively short season when other farms are frozen out of the market.

This area, its tender tomato, bean and cabbage plants ruined by below-freezing temperatures Saturday night, staggered beneath cash losses estimated as high as $10,000,000 in this county alone.

Farmers estimated that, with good growing weather, they'd have a new bean supply in about six weeks.

FREEDOM FROM LIFE TERM COSTS $850

By The Associated Press

TOLEDO, O., Feb. 1—Freedom from a life sentence for murder is worth $850 to Harold E. Winney, 46, a jury decided.

Winney, crippled Toledo mechanical draughtsman, was sentenced in 1914 for the slaying of Carolyn Sprrock, 72-year-old widow, in her home farm near Jackson, Mich. Blood tests by Dr. Pieter F. Keyzer, Jackson microbiologist, brought Winney's release 19 years later.

The Toledoan said he paid Keyzer $100. The Jackson man sued for $1,500, charging breach of contract, and the jury awarded him $750 yesterday.

Bloody prints on Winney's shoe led to his conviction and imprisonment. Keyzer proved, through tests on the rate of coagulation of blood, that the prints were made after Winney was arrested.

ECCLES RENAMED TO RESERVE BOARD

Chairman Nominated for Four Year Term.

By The Associated Press

WASHINGTON, Feb. 1—President Roosevelt nominated Marriner S. Eccles, present chairman of the federal reserve board, today for four more years membership on the board.

The appointment for that period was made possible by an intricate maneuver in which Chester C. Davis, a board member, resigned after half his eight years on the board had expired. That left an unexpired four years which had to be filled and Eccles was given the appointment. Davis, in turn, then was given a reappointment for a 14 year term starting today.

Friends have said they expected Eccles to continue with the reserve board only during the Roosevelt administration.

He has been chairman since Nov. 15, 1934.

ASKS INFORMATION ON OHIO PRIMARY

By The Associated Press

COLUMBUS, O., Feb. 1—On a picture postcard, Charles Henry Fortin, III (the third), of Philadelphia asked the secretary of state today how to enter Ohio's presidential primary.

Secretary Earl H. Griffith informed him that to enter the presidential preference primary he would have to file petitions bearing 1,000 signatures. Presidential convention delegates are not influenced by the results of this contest.

Barnard L. Daniell of Cleveland wired the secretary that he would be a Republican candidate for the U. S. senatorial nomination.

Nominating petitions for congress in the 22nd district were sought by William C. Graves, Cleveland Democrat, and for attorney general by Joseph Allen, Columbus Democrat.

YOUTH KILLED AS AUTO HITS CABOOSE

By The Associated Press

SANDUSKY, O., Feb. 1—Frank L. Merett, 20, was killed and Gilbert Harple, 20, injured seriously as their car crashed into the caboose of a Nickel Plate freight train at a grade crossing on route 4, nine miles south of here, shortly before midnight. Both youths are from Sandusky.

R. E. Conner, state highway patrolman, said the caboose was knocked off the track by the impact. Harple was pinned in the wreckage nearly an hour. He suffered a fractured jaw and leg and internal injuries.

LABOR BOARD ACTS TO ANSWER CHARGES

Seeks To Refute Criticism Before House Committee.

By The Associated Press

WASHINGTON, Feb. 1 — In a race against time, officials of the labor board sought today to refute "all the major criticisms" of the board registered before the special house committee investigating the Wagner act and its administration.

Charles Fahy, general counsel for the board, asked J. Warren Madden, board chairman, to "answer these attacks."

Fahy said Madden's testimony would have to be concentrated because witnesses and committee investigators had been piling up adverse testimony for more than five weeks. The committee also granted board officials one week to present their evidence.

Madden summarized yesterday the board's organization, activity, and accomplishments, declaring that the board had not had a fair chance during its first two years because eminent lawyers were calling the Wagner act unconstitutional. He accused the National Association of Manufacturers of "inciting" employers to disobey the act.

With the supreme court decisions in 1937 upholding constitutionality of the act, Madden said the board was buried under a flood of complaints when it lacked a staff, funds to employ one, and time to train personnel.

Madden insisted, however, that the board had completed a good record, that labor disputes were diminishing, and that a better labor era was ahead.

FLAMES KILL TWO IN TRUCK CRASH

By The Associated Press

ELYRIA, O., Feb. 1—Two unidentified men burned to death in the wreckage of two transport trucks which collided at 7 a. m. today on Route 10, four miles south of Elyria.

The cab door of one truck flew open in the impact and John Ostaff, 29, of Medina, driver for the Western Express lines, was thrown clear with slight injuries.

The two men were riding in a truck owned by Romoe's Auto Forwarding Co., of Watervliet, N. Y.

Ostaff said he swerved to try to avoid the collision, but the big machines met head-on. Ostaff was enroute to Cleveland with a load of general merchandise. A large quantity of paint fed the blaze.

Personal To Fat Girls

Now you can slim down your face and figure without strict dieting or back-breaking exercises. Just eat sensibly and take 4 Marmola Tablets a day, according to the directions.

Marmola Tablets have been sold to the public for more than thirty years. More than twenty million boxes have been distributed during that period.

Marmola is not intended as a cure-all for all ailments. This advertisement is intended only for fat persons who are normal and healthy otherwise and whose fatness is caused by a reduction in the secretion from the thyroid gland (hypo-thyroidism) with accompanying subnormal metabolic rates. No other representation is made as to this treatment except under these conditions and according to the dosage as recommended.

We do not make any diagnosis as that is the function of your physician, who must be consulted for that purpose. The formula is included in every package. Start with Marmola today and win the slender lovely figure that is rightfully yours.

IF YOUR NOSE "CLOSES UP" TIGHT AT NIGHT

Hinders Breathing—Spoils Sleep

DOES YOUR NOSE fill up at night and spoil sleep? Here's a tip. Put a few drops of Vicks Va-tro-nol up each nostril at bedtime. Then notice how it clears air passages, promotes freer breathing and so helps to pave the way for refreshing sleep!

THIS TREATMENT is so helpful because Va-tro-nol is expressly designed to bring relief in the nose and upper throat where transient congestion hinders breathing. Try Vicks Va-tro-nol tonight!

Throw a dollar out of the window

There's a certain amount of pleasure in throwing a dollar bill out of the window (we suppose—we've never tried it) . . . watching it float through the air . . . guessing where it's going to land . . . seeing it finally settle on a curbstone . . . and perhaps seeing some surprised individual pick it up.

At least, it's certainly more fun than throwing away a dollar bill by paying one hundred cents extra for something you're buying. Yet every year we all part with a goodly sum of hard-earned cash that we might otherwise save—**if we knew how to buy!**

The quickest, easiest, simplest way to learn how to buy is to read the advertisements in this newspaper. Know values. Know prices. Know quality. Start now to **stop** throwing dollar bills away!

MARION CO. SINGERS ON STATE PROGRAM

Grange Group Heard Today by Farmers of State.

The Marion County grange chorus appeared on the Farmers' Week program held at Ohio State university this afternoon.

The group was one of three county choruses which won the right to sing at the state meeting in a serious of contests held recently. Marion county singers won over Crawford county in one of the contests.

The chorus sang at a Morral P.-T. A. meeting at the Morral school Tuesday night and is presenting its 20 minute program for other organizations in the vicinity of Marion. The group was organized by Elmer A. Williams, county grange deputy, and is directed by Oscar Kaelber of near Waldo.

The chorus sings a series of songs while other members of the group enact farm home scenes suggested by the songs.

Action is delayed by a new wall switch for electric lights, which are not extinguished until a person has time to leave a room after flipping the switch.

FORMS FOR RETURNS

Forms for filing returns of income for 1939 have been sent to persons who filed returns last year. Failure to receive a form however, does not relieve a taxpayer of his obligation to file his return and pay the tax on time—on or before March 15 if the return is made on the calendar-year basis, as is the case with most individuals.

Forms may be obtained upon request, written or personal, from the offices of collectors and from deputy collectors of internal revenue in the larger cities and towns. A person whose net income for 1939 was derived from salary, wages, dividends, interest, and annuities and was not in excess of $5,000 should make his return on Form 1040 A. A person whose net income was in excess of $5,000 or regardless of amount, was derived from a business, profession, rents, or sale of property, is required to use Form 1040. Failure to use the proper forms presents difficulties to both the taxpayer and the Bureau of Internal Revenue. Therefore, it is emphasized that a taxpayer who is liable for a return and is engaged in a business or profession is required to use Form 1040.

The return must be filed with the collector of internal revenue for the district in which the taxpayer has his legal residence or principal place of business on or before midnight of March 15, 1940. The tax may be paid in full at the time of filing the return or in four equal installments, due on or before March 15, June 15, September 15, and December 15.

MAROON AND WHITE 1941 TAG COLORS

By The Associated Press.

COLUMBUS, O., Feb. 1—Ohio's 1941 automobile tags for general public vehicles will have a maroon background with white numerals and letters.

Cylon W. Wallace, registrar of motor vehicles, said today that production of about 2,000,000 plates for next year would begin probably next week at the state factory in Ohio penitentiary.

The 1940 tags, which go on sale March 1 and must be displayed by April 1, have a blue background with white numerals and letters.

THREE SHEEP CLAIMS FILED DURING WEEK

Damages Totaling $91.50 Asked; 13 Dogs Impounded.

Three sheep claims for damages totaling $91.50 are listed on the report of County Dog Warden Elmer Ullom covering the week ended Saturday and filed with county commissioners.

Heaviest claim was for damage to a flock owned by Edward Pfeiffer of Green Camp township. Four ewes were killed and nine others injured, the damage being placed at $68 by appraisers Ray Klinefelter and Raymond Chard. The flock was attacked by two dogs, both of which were destroyed, on Jan. 21.

Two ewes were killed and another injured of the flock owned by W. H. Wickersham of Claridon township. Damage was placed at $17.50 by C. Howzer and M. A. Denzer. The attack occurred Jan. 21.

Two ewes belonging to John F. Dietsch of Richland township, attacked earlier in the month, died as a result of injuries. Eight dollars had previously been listed as damage to the injured animals and an additional claim of $6 was filed following their death.

Thirteen dogs were impounded during the week by Warden Ullom.

The play was directed by Martha Gale Frew and Mary Jane Llewellyn.

DITCH CONTRACT LET

BUCYRUS, Feb. 1—F. A. McAllister of Delaware has been awarded the contract for labor for construction of the Dorsey Beal ditch in Bucyrus township, county commissioners announced today. McAllister was awarded the contract on his bid of $1,733.08. Contract for material was awarded to the Hancock Brick & Tile Co. of Findlay on its bid of $1,254.30. Reconstruction, deepening, tiling, straightening and building headwalls are included in the project.

Equipped with a three-heat switch, a new electric waffle iron can be used to fry foods and toast sandwiches.

How To Relieve Bronchitis

Bronchitis, acute or chronic, is an inflammatory condition of the mucous membranes lining the bronchial tubes. Creomulsion goes right to the seat of the trouble to loosen germ laden phlegm, increase secretion and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough or you are to have your money back.

Ohio's New Bank Head Has 18 Years Experience in Work Although Only 38

COLUMBUS, O., Feb. 1—Only 38 years old but with more than 18 years of actual banking experience, Rodney Prior Lien is Ohio's new superintendent of banks.

He relinquished the presidency of the National Bank of Lima to succeed Samuel H. Squire of Elyria Jan. 15 in the $7,500-a-year post—one of the best paid in state service.

Squire, an appointee of former Gov. Martin L. Davey, was held over more than a year under Gov. Bricker before resigning to become president of the Tiffin, O., National bank.

Lien was born Oct. 6, 1901, at Postville, Iowa, the son of H. H. and Jane Prior Lien. His father died when he was three years old, and Rodney went to work for a bank in Rudd, Iowa, following his graduation from Postville High school in 1919.

Three years later he transferred to the First National bank of Mason City, Iowa; in 1928 became cashier of the Northwest Savings bank of Mason City, and in 1932 went to Waterloo, Iowa, as assistant receiver for two national banks in liquidation. The following year he became executive vice president of the Waterloo National bank.

His only departure from the banking profession came in 1935, when he was made business manager of Radio stations owned by the Des Moines, Iowa, Register and Tribune. He returned to his chosen field as executive vice president of the National bank of Lima in September, 1936, and was made president of the bank Jan. 1, 1938.

"I intend to have as efficient an administration as possible, and to give as much help as possible to the state banks of Ohio," the greying-haired superintendent declared earnestly.

He is five feet, 10 inches tall, with unusualy broad shoulders which permit him to carry his 185 pounds like an athlete. His hobbies are golf a riding.

"I hope to keep o ing business indefir served. "My ultim far away that I c about it, but bankin

He was married to Nora M. Caruth, daughters, Joan, Nancy, five.

Brazilian Bombshell Explodes Stage Career To Among Top Wage Earners

(This is the last of a series on women from foreign countries who have made fortunes in incomes in America.)

By ALBERT W. WILSON
Associated Press Writer

NEW YORK, Feb. 1—Among a new contingent of feminine invaders of America in pursuit of the dollar, one of the most spectacular is Maria Du Carmo, a black-haired Brazilian firebrand who speaks only a few words of English.

But Carmen Miranda, the Brazilian bombshell—as theater, radio and phonograph record fans know her—hasn't been handicapped by ignorance of the tongue.

Hedy Lamarr

She speaks a universal language with hips, arms and eyes and in eight months her income has gone well beyond $100,000.

When she laughs she makes a little whoop. She whooped with joy in her dressing room as she said frankly: "Mistaire Shubert and me, we are fifty-fifty. He makes mooch money, I make mooch money."

It was Lee Shubert, the producer, who brought her to this country after he made a cruise to Brazil a year ago. She has earned from $1,000 to $1,500 a week in his show, soon to go on the road. In engagements at two of the most fashionable night clubs she is reputed to have been the highest paid cabaret entertainer of the season.

She appeared 18 times in a leading radio hour and now is being filmed in a full length technicolor movie. She also draws royalties on headdresses, jewelry and records and gives testimonials for cigaret and beer ads—though she uses neither.

Where most stars would have a mink or sable, she wears a simple wooly brown coat. She has worn it to the opera and everywhere she goes. She boasted that she gets her exotic costumes cheaply from a Brazilian dressmaker. She says she is 26, has never married and has no intentions of doing so.

Thrift Swede

Quite as thrifty as Carmen is Ingrid Bergman, 23-year-old Swedish blond who is returning to Hollywood for her second season in the proposed epic production of *Joan of Arc*. It should net her a fat salary. Last year, however, she wouldn't give up her Worn-out dressing room slippers until assured the company would pay for new ones.

Among highest paid new stars in Hollywood is Merle Oberon, reported by the government to have earned $139,285 in 1938, her first full year there after a successful start in British movies. Born in Tasmania, raised in India, she recently married Alexander Korda, Hungarian director.

Hedy Lemarr, married to Gene Markey, whose own income as producer and writer was reported as $87,000 for 1938, has made three pictures since arriving in Hollywood from Austria two years ago but she is said to collect $750 a week.

Simone Simon, a bubbling little *Italian-born* girl who lived in France most of her life, collected $110,000 in 1937. Now she is in America again, traveling in a successful Shubert road show. And she says husbands are out—her mother is enough for her to take care of.

Annabella Does Well

Annabella, the French actress whose real name was Suzanne Murat before she married Tyrone Power, earned $87,500 in 1938. Even that wasn't much more than half of what Power earned that year.

Anna Sten, the Russian-born actress who touched $96,800 in 1935, is returning soon to America with her director-husband and it is reported, hopes for a movie comeback.

In his slow way, Uncle Sam may get around in a year or so to tell the salaries of some other young invaders. Vivienne Leigh and Anna Neagle from England, Greer Garson from North Ireland and Ilona Massey from Hungary, whose roles indicate they are not doing badly financially.

Miss Leigh, brought to this country to play "Scarlett" in one of the most costly film productions ever made, is reported ready to make her radio debut provided she gets the largest paycheck given any guest star on the air.

Meanwhile the opera continues to bring foreign stars here—for reasons more easily understood by the public than those offered by the movie producers. Bidu Sayao, a tiny Brazilian, Rosa Pauly, a tall Viennese, and Marjorie Lawrence, a chubby Australian, are among the best known.

PLAY PRESENTED AT GRANGE MEETING

A play, "The Widow's Mistake," was presented at a meeting Tuesday night of Grand Prairie grange. Taking part were Mrs. William Wadsko, Mrs. C. M. Peterson, Mrs. O. C. Young, Miss Louise Hinamon, Miss Elinor Lucas, Marshall Burnett, Robert and Quentin Hinamon and Edward Schwaderer. The program included a song by the grange, readings by Miss Louise Hinamon, Miss Virginia Radel and Mrs. Frank Hinamon, a paper on agriculture by John Schwaderer and a contest which was won by Floyd Barnett. The resignation of Miss Maude Hill as secretary was presented. A short talk was given by Mr. Barrett, Pomona grange master. The charter was draped for the late Carl Hill. The following announcements were made: grange program for Grand Prairie P.-T. A. on Feb. 21; youth meeting at Mt. Olive grange on Feb. 13; practice of degree team Feb. 12 in preparation for conferring the third degree at Morral on March 20. Melvin Radel, John Dean and Marshall Burnett were appointed a refreshments committee for a meeting in two weeks.

CHINESE EDUCATOR TO TALK TONIGHT

Conference To Precede Address At Calvary Church.

Missionary leaders and pastors of all churches in Marion have been invited to a conference with Dr. Roberta Ma, Christian Chinese educator, tonight at 7 at Calvary Evangelical church.

The conference will precede Dr. Ma's address at 7:30, to which the public is invited.

Rev. N. W. Carman of Columbus, field secretary for Chinese relief in Ohio, will accompany Dr. Ma to Marion and will introduce her.

Dr. Edward T. Waring, pastor of Epworth Methodist church and president of the Marion County Ministerial association which is sponsoring Dr. Ma's talk, will preside. Rev. E. E. Overmyer of Oakland Evangelical church will read the Scripture and Rev. F. E. Smoke, pastor of Calvary church, will offer prayer.

TALKS GIVEN AT JUNIOR HIGH RALLY

Talks by Coach Howard Hoffman, other members of the faculty, and Charles Hostetler, Marion Star sports editor, featured an assembly and pep rally at Central Junior High school yesterday afternoon. During the one-hour program of songs and cheering Coach Hoffman and members of Central's basketball team received Western Union messages conveying the good wishes from the student body. The meeting marked a rally of Central High enthusiasts prior to last night's junior high game at the Armory.

RENO, Nev., Feb. 1 — Orson Welles, star of stage and radio, was divorced today by attractive Mrs. Virginia Welles at a brief private trial.

The former Chicago society girl, an actress in her own right, charged cruelty. Details were not made public.

Albert Hilliard, her attorney, said Mrs. Welles was give custody of a 22-months-old daughter, Christopher.

They were married at Palisades, N. J., Nov. 19, 1934.

Mrs. Welles is known on the stage as Anna Stafford.

SEVENTH OHIO STATE PRESIDENT ON JOB

COLUMBUS, O., Feb. 1—Howard L. Bevis became the seventh president of Ohio State university today.

The 49-year-old Cincinnatian who resigned a Harvard professorship to head the fifth largest university in the nation, was given an informal welcome by students who thronged about the administration building on the campus as Bevis arrived.

PURITY THEME OF REVIVAL SERMON

"Blessed are the pure in heart" was the text Rev. Alvin Young, evangelist, used last night in the revival service at First Pilgrim Holiness church.

He said in part: "The Bible mentions pure gold and men believe in that. The Bible mentions pure linen and no one objects. Pure water is mentioned and we desire to drink no other. But some stand in horror at the idea of pure religion.

"One result of heart purity is peace. Justification brings peace with God and sanctification brings the peace of God."

Two persons responded to the altar call. Rev. Young will preach and sing at the service tonight at 7:30.

Mary Reassures Olina That She Will Please Veritzen

...Princess Olina had heard ...ference to Mary's "inveig- ...to the tennis court, she ...sign of the knowledge. ...r tones had been so ...t she had heard noth- ...ously wished that such ...the case—or she was ...the statement, which ...would have been so in- ...to her, for purposes of

"...you come in, Olina?" I ...ying to make my voice

"...orry, but I must not," ...I just came over to ...if you had any idea what ...gown I would need for ...ose, should Mr. Veritzen ...that my harp playing is ...enough."

...flections told me that ...not so sure now of her ...step-father's approval of ...ying as she had appeared ...when she so proudly left ...

"I don't think you need to ...worry on that score," I said re- ...ssuringly. "It is always a policy ...with Mr. Veritzen to take the ...most pessimistic viewpoint of a ...musical problem, especially ...when he is talking to an aspirant. He always says that he would ...rather be discouraging first, and ...encouraging second, than to re- ...verse the process. So I really do not think you need to worry on that score."

What to Wear?

Her face lost its haughtiness and broke into graceful emotion. I saw that her defenses were down, and felt an upsurging rush of sympathy for her.

"Oh! you really think that?" she asked. "Then I can breathe again. But I am puzzled about that gown. I—I have nothing, you know."

"And it wouldn't do you any good if you had a million dresses," Mary struck in with a cheery note in her voice, and I knew that in spite of the smouldering enmity between the two girls, Mary's generous nature was sending out the same wave of sympathy that I had felt.

"You see," Mary explained, "my respected papa-in-law picks the gowns for his productions — and pays for them, as do all big producers. You won't even know what it's like until you try it on. He attends to every detail, down to the last twist of ribbon on your corsage, so you can put your mind at rest on that score."

"I am so glad," she said, and Mary shot a quick glance at her tennis face and narrowed eyes.

"Look here, Kid!" she said breezily, "you're about all in. Hovr about going down to the kitchen, getting a spot of tea from Katie, and then coming out to the tennis courts again? If you don't feel like tennis, there's always croquet. But I prescribe the great open spaces for you about now."

Change of Heart

I was glad to see something akin to ashamed regret in Olina's face. It was; I told myself, most salutary for her to realize the difference in the treatment she had given Mary, and that which Dicky's lovely niece was meting out to her.

"That's awfully sweet of you, Mary," she said at last, and I saw that her face had lost the latent hostility which I had seen in it so often when she looked at Mary. "I would like to take you on at tennis again this morning. Perhaps my luck will turn. But," doubtfully, "I suppose I ought to go back to Maman, although she said she didn't need me."

"Suppose you let me take your place with your mother for awhile," I said. "There are several things I have to discuss with her, and I might as well take this time as any other."

"Oh! I know Maman will be so pleased," she said brightly. "Shall I tell her you're coming?"

"I'll tell her that myself," I said, smiling. "You go on with Mary, and forget everything but your game for the next hour."

"Small children certainly burn up money"

A young mother of three has almost as many financial problems as the Secretary of the Treasury. With a fixed income, and her "dovies" growing like weeds, she never has a minute's rest. Every day she is wrestling with two things—food and clothing.

If you are the mother of one or more small children, if your youngsters seem to literally burn up money, we pass on to you an idea that thousands of other mothers use successfully. Here it is.

After their last good night, when the house takes on a calm that seems unreal, take a pad of paper and go through the advertisements in this paper. When you see an item that fits your "want list" check it and put it on your shopping list.

This simple plan will save you hours of shopping around and in many instances you can phone your order the following morning. *Do your shopping in your own home.* You'll save many dollars over a month. *Follow the ads in this paper.*

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Prexies to Seek Fifth NCO Win at Galion Friday; Irish to Play Ashley

Bohyer Stirs Up Team After Slump; St. Mary Schedules Breather.

SINGLE games comprise this week's basketball menu for Marion Harding and Marion St. Mary cage combines.

The Presidents play a return engagement at Galion tomorrow night, when they seek their fifth North Central Ohio conference win against a club which offered them only mild competition in an earlier league duel on the home court.

Idle until Saturday night the Saints face a "breather" when they entertain Ashley of Delaware county at the Marion Steam Shovel court. The visitors are tied for eighth place in their own circuit, having won but three of nine starts against clubs of their own caliber.

The NCO Schedule

The full round of NCO warfare includes the visit of Bucyrus to Ashland and Mt. Vernon's invasion of Shelby. The front-running Jackets will be after their seventh straight league win and should they run true to form they'll be a step nearer the 1940 crown come Saturday morning.

Most league observers opine that Mt. Vernon is virtually "in" so far as the NCO championship is concerned and nothing less than a miracle can sweep away their first place lead of two games. The Mounties still must play Shelby, Galion, Marion and Bucyrus, but need to cop only two of the four to assure themselves a slice of the banner.

Marion and Ashland still are riding along in the same van, jointly occupying the runner-up berth. The clash of the two teams here a week from tomorrow may decide which club lands the second spot but so far each has an equal chance.

Bohyer Irked

Harding's practice sessions this week were anything but tea parties, since Coach Dewey N. Bohyer began putting on the pressue in an effort to build up a more formidable aggregation. Noticeably displeased with his club's showing a week ago at Shelby, the Harding mentor has sent the team through a series of skull and scrimmage sessions that may bring the desired results.

Check of the Harding scoring records for the season reveals that Dale Hudson has been the heaviest individual pointmaker. He's tossed in 33 field goals and 27 free throws for a 93-point total. Second in line is Russ Reichardt with 46 and others in order are, Johnny Roberts, 44; Andy Irvine, 31; Jack Houpt, 27; Isadore Birnbaum, 26, Ron Stull, 19; Earl Johnson, 18; Bob Smith, 10; George Hedge, 6.

KANSAS STATE LOSES 2 COACHES IN FEUD

Personal Fight Leads to Resignation of Grid Mentors.

By The Associated Press

MANHATTAN, Kas., Feb. 1—A personal fued has cost Kansas State college its two football coaches—Wes Fry and Stan Williamson—and broken up a comradeship of seven years.

The athletic council last night accepted the resignations of Fry and his assistant, Line Coach Williamson.

The council "regretted sincerely the necessity for this action," it said in a statement, but pointed out "the two men have become personally uncongenial."

It never was disclosed what the feud was about, but it seems to have started last football season. It was gossiped around for weeks, but not until Jan. 20 did the two offer their resignations.

Williamson, charging that Fry asked him to resign Dec. 9, said "I am too dazed by the whole thing to know what really is happening."

Fry denied he asked Williamson to quit.

The two had been pals since 1933, when Fry, All-Big Ten fullback on the 1925 Iowa team, became coach at Oklahoma City university.

Kansas State hasn't finished above fourth in the Big Six since 1934 but there never have been serious complaints from the alumni.

Ahearn said 51 men have applied for coaching jobs but no successors have been chosen.

SNATCHES OF SPORTS

By EDDIE BRIETZ

NEW YORK, Feb. 1—Hot stove league: The dopesters say Wally Moses still is ticketed for the Tigers for just about half the freight Connie Mack paid on Benny M'Coy... (M'Coy, by the way, called up every club that bid for him and thanked them for their interest)... With the 45 grand he gave M'Coy, Connie Mack's new infield will set him back $115,000 ... The Yanks once turned down $35,000 for Walter Judnich, the outfielder who goes to the Browns for less than half that.

* * *

Observation Ward: The morning after Pittsville had won from Auburndale in the Wood county (Wis.) basketball league neither of the rival coaches could remember the score.

* * *

Rue de Sockerue: Unless Culnan and Willie Gilzenberg, Newark promoters, exercise their option on Buddy Baer in 12 hours, Buddy will sign to fight Valentine Campolo in the Garden, March 15 ... Mike Jacobs, who saw him fight Tony Zale, says Al Hostak couldn't lay a hand on Billy Conn ... Apostoff over Bettina tomorrow night by a wider margin than in their last engagement.

* * *

Sports Cocktail: Al Schacht has beat it to Ft. Lauderdale, Fla., to visit "Miss F. Lauderdale"... Dan Hill Jr., Duke's great center of two years ago, now is a talent scout for Duke. He was in such a rush to beat a rival to a prospect the other day the cops picked him up for roaring through Virginia at 80 m. p. h. ... Papers all played those AP pictures of Joe McCarthy shoveling snow. It was the hardest work Joe has done since he signed on with the Yanks.

About Lombardi: The Red front office announces Ernie Lombardi probably will be with the club again in 1940... The deal with Brooklyn is off ...Also, the big catcher wasn't sliced $6,000, as reported ...The Reds merely deducted $3,000 they paid him as a bonus for leading the league in hitting in 1938 .. Also, the type of contract offered will permit Ernie to earn as much as he did last year when he was the highest paid catcher in the league, Hartnett excepted.

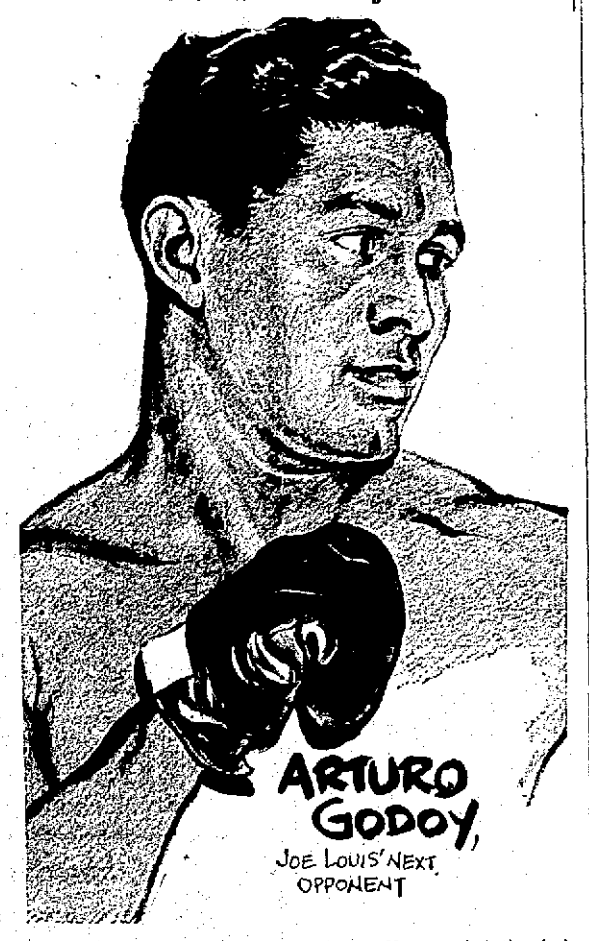
Meet Mr. Godoy Godoy

He will Meet Mr. Joe Louis Feb. 6 for the World's Title and He's Tough.



By United Press

ARTURO SEGUNDA GODOY GODOY—that's his full name—and he fights Joe Louis Feb. 6 for the world's heavyweight championship. The double Godoy follows the Latin custom of attaching the mother's surname to the father's. His mother was a Godoy, but her family was not related to his father's.

The Chilean likes to fight any way, but preferably the rougher the better. His followers say he never has been knocked out and the available records reveal that he has to his credit 32 knockouts, 20 decisions and four draws. On the other side of the ledger are four fights lost.

Rough and Tough

American fight followers remember Godoy for his two brawls with Tony Galento. Brawls they were, with the Marquis of Queensbury's code a forgotten paper. Arturo and Tony did about everything but bite each other, the referee drawing the line there. At the end of 10 rounds in the first bout, Godoy was declared the winner. He repeated the decision in the second, a six-round affair.

Born in Iquique, Chile, on Oct. 10, 1912, Godoy became a breadwinner for the family when his father died. The boy was 8 years old then, and he got a job setting up pins in a bowling alley. He did that for four years, earning about $5 a week. Young Godoy managed to go to public school in Iquique for three years before he was conscripted for military service at the age of 17.

He chose the army because the period of service was only 10 months compared to two years for the navy. It was in the army barracks that Godoy learned to fight. He found he liked to fight and in any way his opponent chose — standing up, rolling in the dirt, gouging, kicking, biting, or just trading haymakers.

Fought By Order

Then one day his company captain ordered him to take part in a boxing tournament. At that time Godoy had never worn a pair of boxing gloves and he knew nothing of the finer points of the game. However, he won the tournament, so when his army service ended he began to fight professionally. Godoy's first fight was in Santiago, then he moved on to wider fields—Buenos Aires, Montevideo, Lima, Havana, United States and Spain.

He defeated some name fighters in these tours, including Tommy Loughran, Jack Roper and Luis Angel Firpo.

Godoy comes of rugged peasant stock with Araucano Indian blood in his veins. He is fast on his feet for a heavyweight, but fistic experts say he lacks a devastating punch—the kind Joe Louis will be throwing at him when they step through the ropes at Madison Square Garden for 15 rounds.

SEABISCUIT SCRATCHED

By The Associated Press

LOS ANGELES, Feb. 1 — One guess is as good as another as to when Charles S. Howard's Seabiscuit will make his 1940 debut at Santa Anita track. The 'Biscuit was withdrawn from a race for the fifth time in 10 days yesterday after Owner Howard decided the track, drenched by an hour of rain, was too slippery for his prized horse.

NOT WORTH $65,000

By The Associated Press

CHICAGO, Feb. 1—Ed Wieland considers Benny McCoy a good ball player but not worth the $65,000 in bonus and salaries he'll be paid within the next two years by the Philadelphia Athletics. "McCoy just got a break and so did I," said the young pitcher who played with McCoy for Beaumont in the Texas league.

Ralph's Quintet Keeps Record Clear

Ralph's Snappy Service cagers breezed to a 43-20 victory over Bibler Vaults, to remain alone and unbeaten at the top of the Industrial league at the cose of the sixth round games last night.

Roy Everly rang the bell for 11 points to pace the winners, who battled the Vaults on even terms in the first period and then grabbed a lead they never relinquished.

In the only other game last night Midway Restaurant dribblers edged Key Town Camp, 41-40. The game went into an overtime stanza before the Restauranters came out on top. Allmendinger, tallying 11 points for Key Town, and Everly, 11 for Ralph's were the evening's highest individual scorers.

Marion Business College forfeited to Bradley Clothiers in the duel that was to round out the three game card. Standings and summaries follow:

Fighting Family Backs Tony Zale in Title Climb

By The Associated Press

CHICAGO, Feb. 1 — If Tony Zale, recent conqueror of Al Hostak in a non-title match, doesn't go on to win the middleweight championship, it won't be for lack of family support.

The mother of the former Gary, Ind., steel mill worker is strictly opposed to boxing. However, she has been overruled and outnumbered by her five fighting sons and 19 grandchildren, most of the latter of whom are boys aspiring to emulate Tony's ring deeds.

Tony, the National Boxing association's fifth ranking contender, jumped into the title picture and further scrambled a middleweight situation already harboring two championship claimants when he outpointed Hostak, the N. B. A.'s champion from Seattle, Wash., in 10 rounds last Monday.

Ceferino Garcia is recognized as champion by the New York and California boxing commissions, but promotional differences are keeping Garcia and Hostak apart.

His four brothers, all of whom also have seen ring competition, think Tony is "going places" in 1940.

John, Tony's first manager and coach who won the middle states A. A. U. lightweight title in 1924, said he believed his brother's layoff from the ring between 1935 and 1937 is paying dividends. An injury forced the vacation.

Joe, 1926 middle states A. A. U. featherweight champion; Frank, a former golden glover, and Walter, the youngest at 22 and also a Golden Glover, complete the ranks of the fighting Zale brothers.

Mrs. Zale, the mother of seven children, remains steadfast in her objection to boxing and has seen Tony in the ring only once.

PATTY BERG NOT HURT BY LAYOFF

By The Associated Press

CORAL GABLES, Fla., Feb. 1—Having heard very little of Patty Berg for the last seven months while the Minneapolis girl was absenting herself from serious golf, the nation possibly will be interested in knowing how Patty has survived her inactivity.

In her semi-final tussle in the Miami-Biltmore tourney today she encounters Marion Miley of Lexington, Ky., a girl who has been right near the top for several years. The winner probably will run into Betty Jameson, the national champion, in the 36-hole final tomorrow. Betty's opponent today is Shirley Ann Johnson of Winnetka, Ill., who won two surprising victories yesterday. A final between the Misses Berg and Jameson would be a natural.

Six Indians Still on Holdout List

Slapnicka Heads South Without Signatures.

By the Associated Press

CLEVELAND, Feb. 1 — C. C. Slapnicka, chief of the Indians' spring training party south today without having settled the financial peace differences of his Redskins.

Johnny Allen, Willis Hudlin, Johnny Broaca, catcher Frankie Pytlak and Hank Helf and baseman Sammy Hale — all interest in a club which dispatched their contracts signed back to the wigwam.

Slapnicka hoped to clean up all of the contract business before he said on departing for Fort Myers (Fla.) training camp, "I'm not going to wait any longer. The players don't appear to be in any hurry to sign so I will give them plenty of time to get over."

Pytlak and Hale are considered the most serious of the holdouts. All were asked to take salary cuts.

Slapnicka said the failure of Allen to sign may cost the rookie a chance to make the Indians as third-baseman. Allen batted .300 last year was optioned to Cleveland by the Cincinnati Reds.

Slapnicka's statement of a contract to the effect that Allen, however, was interpreted as meaning the club still hopes to sign Pytlak. Rollie Hemsley, veteran catcher, is the only other holdout ballplayer on the roster, although Joseph Luke Sewell could be returned to active duty.

Pitchers, infielders and catchers are due at camp Feb. 28, with the remainder of the squad scheduled to report for workouts March 3. The Indians open its exhibition schedule against Syracuse of the International league at Fort Lauderdale, Fla., on March 14.

VERNON TAKES CITY JR. HIGH LOOP LEAD

Edges Central, 27-24, in Contest at Armory.

Vernon Heights' defending champions stepped out in front in the city junior high school loop last night by edging Central's quintet, 27-24, in a close game at the armory. A capacity crowd was on hand to see the East Siders get revenge for a defeat administered by Central early in the season.

Vernon now stands in the lead with two wins and one loss. Edison has one and one and Central is in the cellar with one win and two losses.

Williams, Central forward, was high scorer for the night with 13 points, but Central needed two of him on the lineup. Central led at the three-quarter mark, 22-20.

In a reserve game, Central beat Vernon, 14-12.

Marion Gun Club Makes Plans for Five Trapshoots

Five registered trapshoots, to be the basis of handicap ratings for participation in the Grand American trials at Vandalia early next fall, will be held at the Marion Gun club grounds during the spring and summer, E. H. Huggins, secretary, announced today.

Dates for the events, April 24, May 30, June 19, July 4 and Aug. 7, were fixed at a recent session of club officers. Participants in the national meet must shoot at 500 targets during the season to get handicap ratings and the registered events here will give clay bird enthusiasts an opportunity to qualify.

Two of the shoots will be special events since they come on May 30 and July 4, when annual holiday programs are staged by the club. Practice shoots will be held each Wednesday throughout the season.

WHEAT PRICE DOWN AS SELLING GAINS

By The Associated Press

CHICAGO, Feb. 1 — Wheat prices declined about a cent today as selling increased. Disturbing factors in the trade included prospects of some moisture in the southwest along with reports of steady liquidation of the wheat which has been held under loan.

Opening ¾-7/8 lower, May 96-95⅞, July 93⅜-¾, wheat later continued to decline. Corn started ¼-⅜ down, May 55⅛-¾, July 55⅝-½.

BUYING APATHY CHILLS MARKET

Dealings Sluggish Throughout as Business, Political News Remains Cloudy.

By The Associated Press

NEW YORK, Feb. 1—Buying apathy again dominated the stock market today and leading issues continued to drowse in a narrow groove.

With dealings sluggish throughout, minor plus and minus signs were well scattered near the fourth hour.

While there were a few bright spots in the news, cloudy business and political trends still were viewed as speculative handicaps.

European securities markets did better after a hesitant start. Bonds were up here and there and commodities irregularly lower.

Stocks receiving support were Wheeling Steel, Bethlehem, Continental Motors, Goodyear, Great Northern, Loew's, Anaconda and International Paper.

Backward were U. S. Steel, Chrysler, Montgomery Ward, Westinghouse, Johns - Manville, Allied Chemical and Du Pont.

Rails, which have been acting better than most other stock departments—the majority failed to participate in the fall upsurge—had the benefit of a contra-seasonal advance in last week's freight loadings on top of the flow of revenue statements revealing strengthened incomes for the principal carriers.

Brooklyn - Manhattan transit preferred touched a new 1939-40 peak.

Heavy trading volume in low-priced motors in the past several days was attributed partly to the theory these companies would be in line for overflow business from aviation engine manufacturers. Word that aircraft makers were working with governmental authorities in coordinating machine tool purchases as a means of stepping up warplane output aided shares in the flying division.

"No Regrets," Says Rev. Shaw, Hermit

REV. HENRY SHAW
"I live for the day"

By SAM JACKSON
Associated Press Writer

FORT BRAGG, Calif. — It has been more than a decade since Rev. Henry Shaw became embittered by the way the world had treated him, turned his back on civilization and became a hermit.

Today, comparing his situation with that of his fellow men, he says he has no regrets.

"I have little money, little expense and no worry whatever. I seldom think of the past and never of the future. I live for the day," he explains.

There is no fakery about "the hermit of Fort Bragg."

Alone With Five Cats

He lives in a shack of driftwood on a rocky, unfrequented stretch of coast some miles north of this little lumber town. His only companions are five cats.

He goes barefoot the year 'round. The soles of his feet are so calloused he compares them to horses' hoofs. Except on visits to town, he wears only a piece of gunnysack. Almost daily he takes a dip in the cold surf. His white hair falls to his shoulders, and an untrimmed beard completes this traditional figure of a recluse.

A graduate of Oxford university, England, Shaw early distinguished himself in investigating church irregularities in Wales.

"Some pretty high persons went to prison," he relates. "But the scandal made things unpleasant and I knew I'd better clear out. I went to Canada, didn't like the way things were run there, and came to Fort Bragg."

He learned the undertaking business and for years operated a mortuary serving a huge area of this sparsely settled timber country.

"When people began to die off like flies in the influenza plague it was too much for me," he says. "I went all to pieces."

Six years in a mental hospital followed. The hermit says he was sane but was kept confined so his substantial savings could be alienated. He was penniless when released. It was then he became a hermit.

"I fix up a farmer's fences for the right to live here," he explains. "I get $14 a month relief money and get along just fine. The sea throws up plenty of wood and I don't wear any clothes. I eat good food and so do my cats. And the hungry wayfarer is welcome here."

Has An Invention

Shaw will be 60 in June. Except for an oversize waistline, he is in prime physical condition and as hard as nails. He still speaks with an Oxford accent.

Unmarried and with no relatives I care to mention," the hermit of Fort Bragg can think of only one thing that might take him briefly back into normal life. He claims some years ago he have perfected a new embalming process, "simple, inexpensive, yet astonishing in its results."

He'd like to demonstrate the process but doesn't care much whether he gets paid for it or not.

C. OF C. FORUM ON WAGES, HOURS SET

Two Columbus Men To Talk at Meeting on Feb. 8.

Plans for a wages and hours forum on Thursday, Feb. 8, at 7:45 p. m. were announced today by Louis E. Michel, secretary of the Chamber of Commerce. Ralph P. Ward, director of industrial relations for the Ohio Chamber of Commerce, will be the speaker, discussing new phases and recent developments in wage-hour regulations. There will be a question and answer period in which specific local problems will be discussed.

In addition to Mr. Ward, the Marion Chamber has asked Paul J. Daugherty, director of social security for the Ohio Chamber, to attend and tell of recent developments in his field, especially in view of the amendments made last summer. He has also been asked to speak on recent changes in unemployment compensation.

The forum, to be held at the Chamber offices on North State street, will be open to any one interested. Persons planning to attend are requested to notify the Chamber in advance so that if a large audience seems likely the meeting can be moved to larger quarters. There will be no admission charge.

The meeting is under the auspices of the manufacturers committee of the Chamber, headed by C. O. Brown.

DRIVER ARRESTED AFTER ACCIDENT

Harry Gooding, 56, of 320 South Main street was arrested by police last night on a drunken driving charge after a car he allegedly was driving figured in a collision with another automobile on Leader street, near Silver street.

Mr. Gooding pleaded not guilty before Municipal Judge Hazen this morning and hearing was set for Feb. 8. He was released under $200 bond.

Police said that a car driven by Mr. Gooding collided head-on with a car driven by Arthur Fryman of 738 Gill avenue, while the Gooding car was southbound on Leader street and the Fryman car northbound. The front sections of both cars were damaged and the Gooding car was removed from the scene by a wrecker from the McDaniel Motor Co.

Boston Wool

By The Associated Press

BOSTON, Feb. 1—Domestic wools were receiving very little demand on the Boston market today. Efforts to find outlets resulted in reductions in quotations on the limited spot supplies. Sentiment generally was rather weak on raw wool prices. This was reflected, not only in lower quotations on domestic wools, but also by weakening of demand and lower bids on some of the foreign wools that recently have been moving quite freely to domestic users. The unsettled wool market has been associated with the recent weakness in prices of wool top futures and with reports of weakness in the goods market.

OHIO PASTORS END STATE CONVENTION

Sherwood Eddy and John L. Lewis Address Group.

By The Associated Press

COLUMBUS, O., Feb. 1 — Ohio pastors concluded their annual convention today after hearing Sherwood Eddy of New York, author and lecturer, declare that religion was the only foundation on which to build "a new warless world."

Referring to widespread unemployment in a nation boasting "three families of billionaires and many multi-millionaires," Eddy remarked:

"I am afraid we are living in a pluto-democracy with little justice."

"We are drifting blindly toward the abyss of a World war and we seem to be as blind as bats to the evils of our own country," he continued. "We must strive to build a new and better—a warless world—and only a dynamic and vital, individual and social religion can do it."

John L. Lewis, C.I.O. president, told the convention "bread comes before culture, liberty and the church."

"Before a man can properly worship God, he must eat," Lewis said. "The well being of people must be cared for before the unfortunate can be good Christians."

Lewis said German youth followed Hitler because he promised them bread, adding that labor and the church must cooperate to finds jobs for 600,000 high school graduates.

The convention adopted resolutions opposing theater "bank nights" and criticizing the movie industry for "ignoring its social responsibilities."

SPORTSMEN TO MEET

Boss Johnson of Cincinnati, widely known conservation speaker, will come here next Tuesday to address members of the Marion County Fish & Game Protective association at Central Junior High school auditorium, starting at 7:30. A two-hour program will be presented, arrangements for which are under the direction of Carl Lehner, president of the association. Mr. Johnson's topic will be "Friends We Never Meet."

RETIRED CRESTLINE CONDUCTOR IS DEAD

Special to The Star

CRESTLINE, Feb. 1—Washington E. Keys, 79, retired Pennsylvania railroad conductor, died at Emergency hospital Tuesday where he had been a patient for several months. He formerly lived at the Y. M. C. A.

Born May 9, 1860, in Winchester, Ind., he had spent more than 50 years in Crestline. His marriage Jan. 3, 1883, was to Miss Mary Griffenstein. She is dead.

Funeral services will be held at 2:30 p. m. Friday at the I. G. Foster funeral home. Burial will be in Greenlawn cemetery.

TO SPEAK FRIDAY

Miss Nellie Thum, who is working in the Kentucky mission fields under the auspices of the National Holiness Association Missionary society, will be a guest speaker at Greenwood Evangelical church Friday night at 7:30. The talk will be given in observance of the Day of Prayer being held in connection with "Self Denial Week" which is being held throughout the Evangelical church conference.

E. W. HARROD DIES

KENTON, Feb. 1—Elwood Wilbur Harrod, 80, retired Belle Center hardware merchant, died Wednesday in his home and will be buried after services in Belle Center at 2 p. m. Friday. He was a native of Morrow county but had resided in Belle Center and vicinity for 63 years.

FACE DEATH FOR OHIO SLAYING

Death in the electric chair faces Anthony Cirasole, 30, left, and Joseph Di Marco, 24, both of Brooklyn, N. Y., following their indictment for first degree murder in Cleveland where they are accused of fatally shooting a furrier in a holdup. Cirasole was arrested in Philadelphia.

New Trials Likely in Cemetery Lot Swindle Charges

By The Associated Press

CINCINNATI, Feb. 1 — Forty days of testimony and six of deliberation are over, but the involved Arlington cemetery case, growing out of what the government calls a $1,200,000 swindle, may have another chapter

Four Cincinnatians whose guilt or innocence of charges of mail fraud in the sale of burial lots could not be determined by a federal district court jury may have to face the question again.

Shortly after the jury of farmers and small-town business men acquitted six other defendants and reported disagreement on the four yesterday James J. Waters, assistant U. S. attorney general, said, "evidence demands a retrial."

The six exonerated were Charles Eisen, banker and former Cincinnati councilman; Gordon E. Lawrence of Cincinnati, former bookkeeper for the Arlington project; and Harry Nedelman of Cincinnati, John Alpern, John E. Bernstein, and William B. Woodring, all of Cleveland, salesman for the cemetery lots.

Jury disagreement was the result in the case of Dr. J. Stewart Hagen, veteran surgeon and former chairman of the Hamilton county Republican executive committee; S. Stewart Cooper, a nephew of former Gov. Myers Y. Cooper and assistant county prosecutor, on leave; Alfred Le Feber, nationally known sanitary engineer, and W. H. Schulte, former office manager of the Arlington organization.

The ten were almost the last of 53 men indicted last June. Of these 30 pleaded guilty to the fraud and conspiracy charges and are awaiting sentence. Eight are fugitives and one is dead. Two were granted separate trials, one was dismissed, and one other was arrested only recently.

The alleged kingpin of the Arlington organization, Morton Gilbert, 42, already is under a 15-year Atlanta penitentiary sentence for his part in the Hopewell cemetery promotion, which resulted in a trial on similar charges last spring. He is in a hospital for treatment for an ear infection.

Gilbert pleaded innocent in the Arlington case and acted as his own attorney through most of the trial. Ten days ago he suddenly changed his plea to guilty.

SALVATION ARMY CLASS ENTERTAINED

A candlelight song service opened a meeting of the Beacon Sunday School class of the Salvation Army last evening at the home of the teacher, Mrs. Bernice Williams on North Main street. The following officers were elected during a short business session: Miss Florence Black, president; Miss Maryjane Carr, vice president; Miss Betty Foster, secretary and treasurer; Miss Mary Arthur, chaplain; Miss Erlene Foster, reporter. A quixidoodle game entertained the group and a love offering was taken. Plans were made for a St. Valentine's day party. Refreshments were served.
